About Health Education England

Health Education England (HEE) exists for one reason only: to support the delivery of excellent healthcare and health improvement to the patients and public of England by ensuring that the workforce of today and tomorrow has the right numbers, skills, values and behaviours, at the right time and in the right place.

This Requirement

London faces a challenging target during 2019 to recruit 1710 Nursing Associate Apprentices, across all NHS and healthcare sectors – acute, community, mental health, primary care, and third sector organisations such as hospices, care homes and the wider health economy.

Occupational Profile: The Nursing Associate is a highly trained support role to deliver effective, safe and responsive nursing care in and across a wide range of health and care settings. Nursing Associates work independently, and with others, under the leadership and direction of a Registered Nurse within defined parameters, to deliver care in line with an agreed plan. Nursing Associates will have a breadth of knowledge and a flexible, portable skill set to serve local health populations, in a range of settings covering pre-life to end of life. The Nursing Associate apprentice must meet the 15 standards as set out in the Care Certificate, prior to taking their end point assessment.

Responsibilities and duty of the role: Working within the sphere of nursing the Nursing Associate delivers high quality person-centred care across health and social care settings. The Nursing Associate works within all aspects of the nursing process, taking account of the perspectives and pathways of individuals, their families and/or carers providing holistic and person-centred care to individuals, supporting the registered nurse in the assessment, planning, delivery and evaluation of care

Qualifications: A regulated level 5 qualification such as a Foundation Degree or Level 5 Diploma of Higher Education delivered by an institution approved by the NMC to provide pre-registration nursing education. Apprentices must also achieve, if they do not already hold these qualifications, level 2 English and maths prior to taking their end-point assessment.

To assist employers in responding to this challenge, Salisbury NHSFT is working on behalf of Health Education England to establish a London Nursing Associate Framework, accessible by public sector

employers to procure their Nursing Associate Apprenticeship training. Whilst this Framework is primarily for public sector employers, the providers on the Framework will also be available to other partners within the system, therefore Providers should be able to deliver to both Levy and non-Levy employers, either directly or via contract.

Please also note that whilst the primary need is for London employers, this framework is also open to any contracting authority detailed within this document who wishes to access Nursing Associate provision from the education providers listed on the Framework.
