

SCHEDULE 7
GOVERNMENT FURNISHED ASSETS

LIST OF GOVERNMENT FURNISHED ASSETS

Table 1: Government Furnished Equipment (GFE)

GFE Serial Number	GFE Description	SOW reference	Loan Type	Date Required	Maintenance Responsibility	Purpose
1.	Spares holding in accordance with Schedule 16 (<i>Inventory</i>).	6.3	CSI	The Contract Period	Contractor	To satisfy spares demands.
2.	<p>OTS in accordance with the Sentinel System plus:</p> <p>One (1) Radar Signal Simulator (part number FT1000-140TP1).</p> <p>One (1) PIMP&DRF and networked PCs (x4) (reference MPF RSL/30/16/MPF/313, approved at LTC/CCB but not yet implemented - part number CIS4B/9.00.2213-1).</p> <p>With associated software licences.</p> <p>Housed within Building 782 (GFF Serial Number 1).</p>	7.14.1	CSI	The Effective Date to the 31st March 2020.	Contractor via Schedule 2 (<i>Statement of Work</i>) Paragraph 4.4.	Training capability required to provide aircrew and rear crew training in line with the agreed SOTT.
3.	<p>The MSRSF in accordance with the Sentinel System plus:</p> <p>One (1) DMR STE (part number 5187161-100)</p> <p>One (1) MLTF reference MLTF Sentinel Installation Declaration of Design reference:</p>	<p>4.11</p> <p>5.10.4</p> <p>8.5</p>	CSI	The Contract Period.	Contractor via Schedule 2 (<i>Statement of Work</i>) Paragraph 4.4.	<p>To enable Sentinel System testing.</p> <p>MLTF used as part of the MSRSF to perform Link 16 testing. Please note that this is not part of the</p>

GFE Serial Number	GFE Description	SOW reference	Loan Type	Date Required	Maintenance Responsibility	Purpose
	70523SE2EECOFDES012 One (1) MIST (part number DL760). With associated software licences. Housed in Hangar 3 (GFF Serial Number 2).					MSRSF/Sentinel System.
4.	Three (3) DII terminals, and access to a printing facility for each.	Section 3 Section 4 Section 7	CSI	The Contract Period.	Authority	1. To enable joint working in the Availability Cell 2. To access LITS in support of Maintenance activities at the MOB 3. For Training staff and students use in in crew room at MOB
5.	One (1) MJDI terminal and access to a printing facility.	6.12.1	CSI	The Contract Period.	Authority	To allow the Contractor to manage Sentinel parts at the MOB
6.	Five (5) SATCOM Antenna Special Type Containers (STC).	6.12	CSI	The Contract Period	Authority	To be held by the Contractor and used for the correct stowage of SATCOM antenna when removed from the aircraft. Note: Transition activity required to formalise these

GFE Serial Number	GFE Description	SOW reference	Loan Type	Date Required	Maintenance Responsibility	Purpose
						STCs as traceable parts. The Authority (MOB carpenters) currently perform maintenance, repair or replace of them.
7.	Five (5) DMR antenna STCs.	6.12	CSI	The Contract Period	Authority	To be held by the contractor and used for the correct stowage of DMR antenna when removed from the aircraft.
8.	Engines.	Section 4 Section 6	CEI	As required during maintenance in accordance with the ADS.	Authority	All replacement engine parts as identified by the Time LIMITS and Maintenance Checks (TLMC) and any Engine LRUs requiring overhaul, upgrade or repair i.e. EECs will be the responsibility of the Authority for both parts and touch labour.
9.	Support Equipment made available for calibration of Support Equipment at MOB.	4.12	CSI	The Contract Period.	Contractor	To enable the calibration service to be performed on the Support Equipment.
10.	One (1) User DMR Diagnosis laptop and access to Aircraft with fitted, serviceable DMRS LRUs.	7.34	CSI	Throughout the Contract Period in accordance with the SOTT agreed quarterly at the	Authority	Training capability required to provide DMRS training in line with the agreed SOTT.

		drawer and phones. 12. Access to and use of the Hangar 3 Crew rooms, lockers and changing rooms.					
3.	MOB Main Server Room	MOB Main Server Room for housing of Contractor IT infrastructure	All	CSI	The Contract Period	Authority	To enable Contractor IT.
4.	Training and Development Flight (TDF)	Access to use the shared meeting rooms/classrooms available at the MOB.	All	CSI	The Contract Period	Authority	To enable governance meetings to take place across the Service.

Table 3: Government Furnished Information (GFI)

GFI Serial Number	GFI Description	SOW Reference	Date Required	Responsibility	Purpose
1.	Geospatial data.	Section 7	When the Authority (User) change their data, assumed to be six (6) monthly throughout the Contract Period	Authority	The OTS requires the data in order to support mission planning, execution and data analysis. Delivered as a single copy in CDROM format by hand.
2.	Link 16 operational task data.	Section 7	Annually throughout the Contract Period	Authority	The OTS requires the data in order to support mission planning and execution. Delivered as a single copy in CDROM format by hand.
3.	SATCOM mission plan.	Section 7	Annually throughout the Contract Period	Authority	The OTS requires the data in order to support mission planning and execution. Delivered as a single copy in CDROM format by hand.
4.	Historical Sentinel mission data.	7.4.5	When the Authority (User) change their data, assumed to be six (6) monthly throughout the Contract Period	Authority	Required to train for operations by simulating generic operations anywhere in the world. Delivered as a single copy in CDROM format by hand.

GFI Serial Number	GFI Description	SOW Reference	Date Required	Responsibility	Purpose
5.	Fleet Plans.	Section 3	The Contract Period	Authority	To enable prioritisation of the Service. Delivered as a single copy in MS Excel spread sheet format by email.
6.	Business Continuity for GFF.	Section 2	The Contract Period	Authority	Visibility of the Authority's Business Continuity Plan for GFF facilities and recovery actions in order to support the Service. Delivered as a single copy in MS Word format by email.
7.	Authorising letter to support the OGEL.	6.12	20 Business Days from the Effective Date	Authority	To enable the import and export of goods against the Contract. Delivered as a single copy in MS Word format by email.
8.	Sentinel equipment utilisation data (flying hours).	8.14.2	The Contract Period	Authority	To enable FRACAS. Delivered as a single copy in MS Excel format by email.
9.	Hazard Evaluation Reports (HER).	5.15	The Contract Period	Authority	To enable HER reviews. Delivered as a single copy in MS Word format by email.
10.	Command and Aquisition Support Plan (CASP) for Sentinel.	2.10.1	Annually through the Contract Period	Authority	To enable the optimisation service and CASP impact assessments. Delivered as a single copy in MS Word format by email.
11.	SOPHOS Antivirus licence.	8.5.1	Annually through the Contract Period	Authority	To enable the Contractor to download updates. from DOBUS. Online log in detail to access the DOBUS website delivered in a single email.

GFI Serial Number	GFI Description	SOW Reference	Date Required	Responsibility	Purpose
12.	Sixteen (16) DII accounts	Sections 3, 4, 5 and 7.	The Contract Period	Authority	<p>Across Fleet Management, Maintenance, CM/DM and Training.</p> <p>Note: DII terminals covered in GFE.</p> <p>Delivered in the format of log in detail via single email.</p>
13.	Security Aspects Letter (SAL).	All	The Effective Date and any updates as required thereafter.	Authority	<p>To provide security aspects of the Contract.</p> <p>Delivered as a single copy in MS Word format as a commercial letter by email.</p>
14.	Engines technical data.	5.3	The Contract Period.	Authority	<p>Any Airworthiness Directives, Notice To Operators, or RR TV (Technical Variances) documentation resulting in design or maintenance related engine work shall be provided by the Authority.</p> <p>Delivered as a single copy by email when received from the Engine OEM.</p>

Table 4: Government Furnished Resources (GFR)

GFS Serial Number	GFR Description	SOW Reference	Loan Type	Date Required	Responsibility	Purpose
1.	Pilots for all flight activities.	1.6.6	N/A	As required	Authority	All flights are conducted within the Sentinel release to service, no MFTP required, requirement and timing to be detailed in the Depth Maintenance SOW and Schedule
2.	5 (AC) Sqn Rectification Control support	4.4	N/A	As required	Authority	To support the Contractor in delivering Forward Maintenance tasks
3.	71 Squadron repair and NDT capability e.g. wing to body fairing and floor panel repairs	4.4	N/A	As required	Authority	To provide NDT techniques where the Contractor can undertake the NDT procedure and to provide a NDT service including provision of the technique where the Contractor cannot undertake the procedure
4.	Support to the Mission System Status Test	4.9	N/A	As required	Authority	To assist the Contractor with elements of Depth testing that the Contractor cannot perform as defined in the Mission System Status Test procedure
5.	Services of a ten (10) tonne fork lift truck and driver.	Section 6	N/A	As required	Authority	Occasional use to move heavy equipment. Contractor to notify the Authority two (2) hours before the services are needed.
6.	Tactical Data Link Support Unit (TDLSU) Support	5.10.4 8.5	N/A	As required	Authority	To support Link 16 testing – to provide timed access on to the network in support of regression testing.
7.	Air Traffic Control	Section 4	N/A	As required	Authority	Aircraft testing and fault finding. Contractor to notify the Authority two (2) hours before
