Annex 2 – Specification

Tender for Specification for Support for the Task Force on Emission Inventories and Projections (TFEIP)

Background and Introduction

The Task force on Emission Inventories and Projections (TFEIP) supports Parties in the reporting of air pollutant emissions and projections data to the United Nations Economic Commission for Europe (UNECE) Convention on Long-range Transboundary Air Pollution (CLRTAP or Air Convention). This includes having responsibility for the development and technical content of the EMEP/EEA Emission Inventory Guidebook used for the estimation and reporting of national emissions. The TFEIP also provides a technical forum and expert network to harmonise emission factors, establish methodologies for the evaluation of emission data and projections and identify problems related to emissions reporting. A further important aspect of its work is to support Parties in implementing the reporting requirements of the Convention's emission reporting guidelines.

TFEIP presently has five expert panels that cover different priority areas. These panels are ad-hoc groups that provide a focal point for activities related to specific technical areas and also serve to encourage the exchange of information between experts. The current expert panels include three sector panels on combustion and industry, agriculture and nature, transport, and waste together with a cross-cutting projections panel.

TFEIP is just one of the task forces under the Air Convention. TFEIP sits under the European Monitoring and Evaluation Program (EMEP) part of the Air Convention. This means that the outputs of the task force will feed into, and be discussed, at the EMEP Extended Bureau meeting and at the EMEP Steering Body meeting of the Air Convention.

The TFEIP currently holds an annual meeting of members, often in April or May. These meetings are run as hybrid meetings, if a country has volunteered to host, or run as a virtual meeting if there have been no volunteers to host. Information about previous meetings, including locations and minutes can be found here <https://www.tfeip-secretariat.org/meetings>.

The Authority funds specific roles within the TFEIP:

- Chair of the TFEIP;
- Co-Chair of the TFEIP's Projections Expert Panel (PEP);
- Secretariat Support for these roles and for the running of the TFEIP.

The Authority wishes a Contractor to undertake these roles as well as related activities outlined below for a period of three years with the option of two two-year extension periods. However, if the agreed Chair of the TFEIP and/or Co-Chair of the TFEIP's PEP changes; the Authority reserves the right to terminate the Contract.

The Supplier shall make provision for up to £10,000 per contract year (pro-rata) for a call-off or ad hoc budget. This is a flexible budget to be used at the Authority's discretion. It is not guaranteed and may be subject to variation in the future. This call-off budget will be used to fund all the items in the specification that are specifically identified as being funded by the ad hoc budget, as well as related items to be agreed with the Authority during the contract.

Scope/ Requirement

The Contractor will be contracted to undertake the following activities for three years (with the option of a two two-year extension period), subject to the agreed individuals remaining in post. If the agreed Chair of the TFEIP and/or Co-Chair of the TFEIP's PEP changes, the contractor may put forward a

suitable replacement for the Authority's consideration however the Authority reserves the right to terminate the Contract.

TFEIP Chair

The Chair's objectives and activities are to:

- Oversee the collation and delivery of the annual work plan for the TFEIP. This will be developed in collaboration with TFEIP co-chairs, the emissions inventory community, expert panel members and TFEIP members. This will be funded through the core budget.
- Leading the organisation and delivery of the annual TFEIP Management Meetings, at which key decisions and planning for the year ahead take place such as planning the next TFEIP meeting and plans for guidebook updates. This involves a meeting with the co-chair(s) and meetings with the expert panel leader. This will be funded through the core budget.

Plan and deliver the TFEIP annual meeting. This meeting will be run as a hybrid meeting if a country has volunteered to host or run as a virtual meeting if there have been no volunteers from the TFEIP membership to host. Tasks include: preparing the agenda, overseeing invitations, liaison with the hosts (if applicable), liaison with the expert panel Chairs, leading the meeting, delivery of presentations, drafting of meeting conclusions. This will be funded through the core budget.

- Oversee the work of the expert panel leaders and where required, reach out to other experts to encourage them to take up these positions when somebody leaves. Suggest and enable new expert panels when required. Prioritise the improvements to the guidebook and emissions inventory evidence base and reach out to the expert community to support this. This will be funded through the core budget.
- Ensure that emission inventory reporting remains up-to-date and relevant to the aims of the Air Convention by engaging with the wider CLRTAP community to identify key priorities and direction of travel and using this to plan for future changes to reporting where necessary. This will be funded through the core budget.
- Liaise with the TFEIP co-chair(s), the emissions inventory community, expert panel members and TFEIP members to keep them abreast of developments within CLRTAP, particularly those closely related to emission inventories. This will be funded through the core budget.
- Collaborate with other centres and task forces within the CLRTAP, and other international organisations where emission inventories are relevant. This could include, for example, developing joint workplan items for the CLRTAP workplan or assessing how new pollutants of interest could be reported in an inventory. This will be funded through the core budget.
- Contribute to capacity building with countries both within and outside of the CLRTAP through the Forum for International Cooperation on Air Pollution (FICAP). FICAP provides a forum for international exchange and mutual learning and to facilitate the sharing of science, technical and policy expertise internationally. The Task Force for FICAP acts as a steering group to the forum. Attendance of the Chair at the annual meeting of the Task Force for FICAP will be required (or a suitable alternative person suggested). A minimum of two capacity building events must be planned and carried out per year. This will be funded through the core budget. Any additional capacity building will be funded through the ad hoc budget.

- Participate in Defra's International Air Quality Expert Group (IAQEG) meetings and use expertise to challenge UK positions and feedback on what other countries are publishing under their emission inventories. Participation in four meetings per year will be funded through the core budget. Any additional meetings would be funded through the ad hoc budget.
- Submit the formal reporting for TFEIP. A report of the TFEIP annual meeting and workplan will be submitted to the EMEP Steering Body in September and presented at the meeting itself in Geneva. Attendance at this meeting and travel and subsistence for travelling to Geneva will be covered in the core budget.
- Representing the TFEIP at the EMEP extended bureau meeting in March. At this meeting, the Task Force chairs discuss their upcoming work and any cross-cutting issues. The Chair will be required to represent TFEIP at this meeting and feedback to the Authority on issues relevant to the UK. This meeting is usually held in Geneva. Attendance at this meeting and travel and subsistence for travelling to Geneva will be covered in the core budget.
- Leading TFEIP Initiatives and ad hoc activities: the TFEIP is periodically asked to provide contributions to various activities in the Air Convention such as on uncertainties or potential additional pollutants that could be considered under the Air Convention, and this typically requires formation of ad hoc groups and then formal reporting. This would be led by the chair or suitable alternative. This will be funded through the core budget.
- Other forms of dissemination and networking: this involves overseeing the content of the TFEIP website and attending meetings where formal contribution from the TFEIP is of value and is requested, such as the Intergovernmental Panel on Climate Change's (IPCC) Short-Lived Climate Forcers meetings. This will be funded through the ad hoc budget.

The Chair role requires the following key skills and experience:

- A detailed understanding of national emission inventories.
- Technical knowledge of air quality science; modelling, measurement, deposition, policy drivers, impacts and transport, and emerging issues.
- A clear understanding of the key goals and commitments of the United Nations Economic Commission for Europe's Convention on Long Range Transboundary Air Pollution (CLRTAP), its work plan and long-term strategy.
- Ability to establish, maintain and leverage effective and inclusive international networks.
- Chairing and leadership skills.
- Experience and understanding of Task Force on Emissions Inventories and Projections and its practices and objectives.
- An understanding of how national Air Quality policies are developed, and the associated sensitivities.
- Experience of delivering successful capacity building exercises.

TFEIP Projections Expert Panel Co-Chair

The Projections Expert Panel (PEP) Co-Chair's objectives are to support the TFEIP in how emission projections are reported by Parties, and to understand and communicate potential policy implications of any improvements or data gaps to the Authority. An important role of the expert panels is to review the latest scientific knowledge available concerning emissions and estimation methodologies, and to maintain and update the content of the EMEP/EEA Guidebook. The panels also serve to encourage the exchange of information between experts.

Activities of the PEP Co-Chair include:

- Preparing for and chairing the PEP session at the TFEIP annual meeting. This will be funded through the core budget.
- Producing the PEP annual work plan. This will be funded through the core budget.
- Working with the Secretariat to produce an article on the work of the PEP for the TFEIP autumn newsletter to provide an update 6 months after the TFEIP annual meeting. This will be funded through the core budget.
- Contributing to other tasks as and when required relating to the PEP. This includes, for example, contributing to the updates of the EMEP/EEA Emissions Inventory Guidebook and contributing to the continuous improvement of projections reported to the CLRTAP. This will be funded through the ad hoc budget.
- Meetings with the Authority on an ad hoc basis, to be agreed with the Authority. These would be funded through the ad hoc budget.

The PEP Co-Chair role requires the following key skills and experience:

- A detailed understanding of national emission inventories, particularly projected emission estimates.
- Technical knowledge of air quality science; modelling, measurement, deposition, policy drivers, impacts and transport and emerging issues.
- Ability to establish, maintain and leverage effective and inclusive international networks.
- Chairing and leadership skills.
- Experience and understanding of Task Force on Emissions Inventories and Projections, the projections expert panel, and their practices and objectives.
- An understanding of how national Air Quality policies are developed, and the associated sensitivities.

Secretariat Support

The main aim of this role is to provide administrative support to both the Chair and Co-Chair roles identified above and to enable the smooth running of the TFEIP. Activities include:

- Organising and attending the TFEIP Management Meetings. This will be funded through the core budget.
- Leading on the logistics and planning of the Annual TFEIP meeting. This involves setting the agenda, collecting responses on who will be attending and replying to queries. The Secretariat attends the meeting, providing technical secretariat support to the TFEIP Co-Chairs and attendees such as welcoming attendees, taking notes and setting up the meeting for online participants. This will be funded through the core budget.
- Leading on the TFEIP communications. This involves organising the hosting, maintenance, and updating of the TFEIP website, compiling the 6 monthly TFEIP newsletter, answering ad hoc queries (including technical queries), outreach activities, and managing the TFEIP inbox and responding to general enquiries and directing other enquiries as appropriate. This will be funded through the core budget.
- Recording and disseminating actions and meeting minutes for the TFEIP annual meeting, meetings with the Authority, and the TFEIP management meetings. This will be funded through the core budget.

The Secretariat role requires the following key skills and experience:

- An understanding of national emission inventories.
- Ability to support effective and inclusive international networks.
- Administrative and IT skills, plus the ability to organise large international conferences
- Ability to communicate technical information clearly to a range of stakeholders.

Reporting and Deliverables

Regular update meetings: The Authority and the Chair will meet remotely on a monthly basis. This will be funded through the core budget.

December – TFEIP Management Meetings

- Small and focused meetings of the TFEIP co-chair(s) and with the expert panel leaders undertake planning for the year ahead. A discussion before and after provides the opportunity for the Authority to input into TFEIP planning. Required output – a summary of the meeting, highlighting any plans that are of particular relevance to the UK. This will be funded through the core budget.

February/March – EMEP Extended Bureau Meeting

- This is a precursor to the EMEP Steering Body meeting and is where all the task force chairs discuss their annual plans and cross-cutting work. The Chair will present on the TFEIP plans and feed in information to relevant cross-cutting work and will provide notes on key information from the meeting to the Authority. This will be funded through the core budget.

May – TFEIP Annual Meeting

- The main TFEIP meeting has attendance of ~120 technical experts from different countries. A discussion before and after provides the opportunity for the Authority to inform the TFEIP's work programme. The chair will recommend to the Authority which agenda items are of most relevance to the UK so that the Authority can decide on whether they will send representatives or not. This will be funded through the core budget.

September – EMEP Steering Body Meeting

- This is the joint meeting of the EMEP Steering Body and the Working Group on Effects. The Co-Chair of the TFEIP attends the "EMEP" and "Joint" parts of the meeting, but not the "Effects" part. This is held in Geneva. The Chair will present on the work of TFEIP, upcoming work and will feed in to cross-cutting agenda topics such as uncertainties. They will also provide notes on key information from the meeting to the Authority. This will be funded through the core budget.

CLRTAP Executive Body (December) and Working Group on Strategies and Review Meeting (May)

- It is not anticipated that the TFEIP Chair will attend these meetings, but as the Authority participate in the meeting at which formal decisions important to the TFEIP are made, a discussion before and after between the Authority policy and TFEIP Chair may be requested. This will be funded through the ad hoc budget.

May/Jun - TFEIP Chair's attendance at Convention on Long-Range Transboundary Air Pollution (CLRTAP) reviews

- The Chair will be responsible for overseeing the work of the personnel reviewing both new and previously accepted Adjustments under the Gothenburg Protocol. This has previously included reviewing adjustments for: Belgium, Denmark, Finland, France, Germany, Hungary, Luxembourg and Spain. The Chair will not be involved in the review of the UK's adjustment application.
- Expected outputs from this are a completed checklist spreadsheet for each new Adjustment application, and a summary report of all findings and recommendations for the European Monitoring and Evaluation Programme (EMEP) Steering Body. This report will then go into the public domain after the review period. This will be funded through the core budget.

A. Capacity Building:

- The Chair (or a suitable deputy, to be agreed with the Authority) will be required to carry out capacity building activities with certain countries to improve the quality of their inventories and support them to fulfill the inventory and projections requirements to enable them to ratify protocols under CLRTAP. Capacity building will be comprised of webinars, workshops, or inventory reviews and activities and progress will be reported as part of the regular monthly updates and an annual summary will be reported to the Authority by the end of March each year. Two capacity building events will be funded each year. This will also include contributions to FICAP which will involve sharing information, tools and expertise from TFEIP that can be used in other regions outside the UNECE, including through global and international initiatives. This will be funded through the core budget.

B. Supporting the Policy-Making Process:

- Leading the TFEIP's input into the full revision of the Gothenburg Protocol and providing information and expert views to the Authority to help inform UK positions such as on the implications of changes relating to emission inventories on the UK. This will include organising and/or attending meetings related to the revision which are pertinent to the TFEIP, such as the working groups on Condensables and Black Carbon. The TFEIP will need to respond in an agile manner to the re-negotiations and engage with the Authority on these issues in a timely manner as determined by the Authority. Information provided by the Authority relating to the re-negotiations will be considered confidential. This will be funded through the core budget.

Monthly Updates

The Contractor will provide a short monthly summary of activities to the Authority via the virtual catch-ups. This will be funded through the core budget.

Attendance at meetings

The Contractor will attend quarterly International Air Quality Expert Group meetings with the other Task Forces and scientific bodies funded by the Authority and quarterly Air Quality Inventory Steering Group meetings. This will be funded through the core budget.

Six Monthly Reporting:

Each September and March, the Contractor will compile the six monthly report to be sent to the Authority. The report will focus on two areas:

1) Policy:

- A summary of the latest information on UNECE Protocols, potential changes, any implications for reporting, an overview of the latest activities being undertaken by the TFEIP, and horizon scanning for relevant future activity, from both a scientific and policy making point of view. It will also update on progress made on capacity building within and outside of the UNECE region.

2) Technical:

- Information on results from research projects, the work of the TFEIP Expert Panels, updates to the EMEP/EEA Emissions Inventory Guidebook and new information on emissions in general (areas that might be of use for the NAEI are to be specifically flagged to the Authority), any discussion relating to changes to the reporting under the Air Convention, feedback from inventory reviews and examples of best practice that might be included in the UK inventory, and horizon scanning for relevant future activity.

The report will also include an assessment of performance against the contract KPIs (see KPIs section below). These reports, and performance against KPIs, will be reviewed by the Authority.

3. How the Contract works

3.1 The Order Form is an offer by the Authority to purchase the Deliverables subject to and in accordance with the terms and conditions of the Contract.

3.2 The Supplier is deemed to accept the offer in the Order Form when the Authority receives a copy of the Order Form signed by the Supplier.

3.3 The Supplier warrants and represents that its Tender Submission and all statements made and documents submitted as part of the procurement of Deliverables are and remain true and accurate.

4. What needs to be delivered

4.1 All Deliverables

(a) The Supplier must provide Deliverables: (i) in accordance with the Specification and Tender Submission; (ii) to a professional standard; (iii) using all reasonable skill and care; (iv) using Good Industry Practice; (v) using its own policies, processes and internal quality control measures as long as they don't conflict with the Contract; (vi) in accordance with such policies and procedures of the Authority (as amended from time to time) that may be specified in the Contract (vii) on the dates agreed; and (viii) in compliance with all applicable Law.

(b) Without prejudice to the Specification the Supplier must provide Deliverables with a warranty of at least 90 days (or longer where the Supplier offers a longer warranty period to the Authority) from Delivery against all obvious damage or defects.

4.2 Goods clauses

(a) All Goods Delivered must be capable of meeting the requirements set out in the Specification and be either (i) new and of recent origin, (ii) reused or (iii) recycled.

(b) All manufacturer warranties covering the Goods will be assigned to the Authority on request and for free.

(c) The Supplier transfers ownership of the Goods on completion of Delivery (including off-loading and stacking) or payment for those Goods, whichever is earlier.

(d) Risk in the Goods transfers to the Authority on Delivery but remains with the Supplier if the Authority notices any damage or defect following Delivery and lets the Supplier know within three Working Days of Delivery.

(e) The Supplier must have full and unrestricted ownership of the Goods at the time of transfer of ownership.

(f) The Supplier must Deliver the Goods on the date and to the specified location during the Authority's working hours.

(g) The Supplier, its subcontractor(s) and supply chain must minimise packaging used whilst providing sufficient packaging for the Goods to reach the point of Delivery safely and undamaged. The Supplier must take back any primary packaging where it is possible to do so. Packaging must be 100% re-usable, recyclable or compostable, use recycled content where reasonably practicable and support the Government's commitment to eliminate single use plastic.

(h) All Deliveries must have a delivery note attached that specifies the order number, type, quantity of Goods, contact and details of traceability through the supply chain.

(i) The Supplier must provide all tools, information and instructions the Authority needs to make use of the Goods. This will include, where appropriate, any operation manuals which, unless specified otherwise, will be written in English and provided in electronic form.

(j) The Supplier will notify the Authority of any request that Goods are returned to it or the manufacturer after the discovery of safety issues or defects that might endanger health or hinder performance and shall indemnify the Authority against the costs arising as a result of any such request. Goods must be disposed of in line with the waste management hierarchy as set out in Law. The Supplier will provide evidence and transparency of the items and routes used for disposal to the Authority on request.

(k) The Authority can cancel any order or part order of Goods which have not been Delivered. If the Authority gives less than 14 calendar days' notice then it will pay the Supplier's reasonable and proven costs already incurred on the cancelled order as long as the Supplier takes all reasonable steps to minimise these costs.

(l) The Supplier must at its own cost repair, replace, refund or substitute (at the Authority's option and request) any Goods that the Authority rejects because they don't conform with clause 4.2. If the Supplier doesn't do this it will pay the Authority's costs including repair or re-supply by a third party.

(m) The Authority will not be liable for any actions, claims, costs and expenses incurred by the Supplier or any third party during Delivery of the Goods unless and to the extent that it is caused by negligence or other wrongful act of the Authority or its servant or agent. If the Authority suffers or incurs any damage or injury (whether fatal or otherwise) occurring in the course of Delivery or installation then the Supplier shall indemnify from all losses, damages, costs or expenses (including professional fees and fines) which arise as a result of or in connection with such damage or injury where it is attributable to any act or omission of the Supplier or, where related to the Contract, any of its subcontractors or suppliers.

4.3 Services clauses

(a) Late delivery of the Services will be a breach of the Contract.

(b) The Supplier must co-operate with the Authority and third party suppliers on all aspects connected with the delivery of the Services and ensure that Supplier Staff comply with any reasonable instructions including any security requirements.

(c) The Authority must provide the Supplier Staff with reasonable access to its premises at such reasonable times agreed with the Authority for the purpose of supplying the Services.

(d) The Supplier must at its own risk and expense provide all equipment required to deliver the Services. Any equipment provided by the Authority to the Supplier for supplying the Services remains the property of the Authority and is to be returned to the Authority on expiry or termination of the Contract.

(e) The Supplier must allocate sufficient resources and appropriate expertise to the Contract.

(f) The Supplier must take all reasonable care to ensure performance does not disrupt the Authority's operations, employees or other contractors.

(g) On completion of the Services, the Supplier is responsible for leaving the Authority's premises in a clean, safe and tidy condition and making good any damage that it has caused to the Authority's premises or property, other than fair wear and tear and any pre-existing cleanliness, safety or tidiness issue at the Authority's premises that existed before the commencement of the Term.

(h) The Supplier must ensure all Services, and anything used to deliver the Services, are of the required quality and free from damage or defects.

(i) The Authority is entitled to withhold payment for partially or undelivered Services or for Services which are not delivered in accordance with the Contract but doing so does not stop it from using its other rights under the Contract.

5. Pricing and payments

5.1 In exchange for the Deliverables delivered, the Supplier shall be entitled to invoice the Authority for the charges in Annex 3. The Supplier shall raise invoices promptly and in any event within 90 days from when the charges are due.

5.2 All Charges:

(a) exclude VAT, which is payable on provision of a valid VAT invoice and charged at the prevailing rate;

(b) include all costs connected with the supply of Deliverables.

5.3 The Authority must pay the Supplier the charges within 30 days of receipt by the Authority of a valid, undisputed invoice, in cleared funds to the Supplier's account stated in the Order Form.

Details of the Authority's requirements for a valid invoice at the Start Date are set out in Annex 3.

5.5 If there is a dispute between the Parties as to the amount invoiced, the Authority shall pay the undisputed amount. The Supplier shall not suspend the provision of the Deliverables unless the Supplier is entitled to terminate the Contract for a failure to pay undisputed sums in accordance with clause 11.6. Any disputed amounts shall be resolved through the dispute resolution procedure detailed in clause 35.

5.6 If any sum of money is recoverable from or payable by the Supplier under the Contract (including any sum which the Supplier is liable to pay to the Authority in respect of any breach of the Contract), that sum may be deducted unilaterally by the Authority from any sum then due, or which may become due, to the Supplier under the Contract or under any other agreement or contract with the Authority. The Supplier shall not be entitled to assert any credit, set-off or counterclaim against the Authority in order to justify withholding payment of any such amount in whole or in part.

5.7 The Supplier must ensure that its subcontractors and supply chain are paid, in full, within 30 days of receipt of a valid, undisputed invoice. If this doesn't happen, the Authority can publish the details of the late payment or non-payment.

6. The Authority's obligations to the Supplier

6.1 If the Supplier fails to comply with the Contract as a result of an Authority Cause:

- (a) the Authority cannot terminate the Contract under clause 11 on account of the failure to comply, provided this will not prejudice the Authority's right to terminate for another cause that may exist at the same time;
- (b) the Supplier will be relieved from liability for the performance of its obligations under the Contract to the extent that it is prevented from performing them by the Authority Cause and will be entitled to such reasonable and proven additional expenses that arise as a direct result of the Authority Cause;
- (c) the Supplier is entitled to any additional time needed to deliver the Deliverables as a direct result of the Authority's Cause;
- (d) the Supplier cannot suspend the ongoing supply of Deliverables.

7.4 The Supplier must provide information to the auditor and reasonable co-operation at their request.

(a) as to the financial stability of the Supplier such that it may impact on the continued performance of the Contract; or

(b) as to the sustainability or health and safety conduct of the Supplier, subcontractors and supply chain in the performance of the Contract;

then the Authority may:

(i) require that the Supplier provide to the Authority (for its approval) a plan setting out how the Supplier will ensure continued performance of the Contract (in the case of (a)) or improve its sustainability conduct or performance (in the case of (b)) and the Supplier will make changes to such plan as reasonably required by the Authority and once it is agreed then the Supplier shall act in accordance with such plan and report to the Authority on demand

(ii) if the Supplier fails to provide a plan or fails to agree any changes which are requested by the Authority or materially fails to implement or provide updates on progress with the plan, terminate the Contract immediately for material breach (or on such date as the Authority notifies).

8.4 The Supplier must provide a list of Supplier Staff needing to access the Authority's premises and say why access is required.

8.5 The Supplier indemnifies the Authority against all losses, damages, costs or expenses (including professional fees and fines) arising from claims brought against it by any Supplier Staff caused by an act or omission of the Supplier or any other Supplier Staff.

8.6 The Supplier shall use those persons nominated in the Order Form (if any) to provide the Deliverables and shall not remove or replace any of them unless:

- (a) requested to do so by the Authority;
- (b) the person concerned resigns, retires or dies or is on maternity, adoption, shared parental leave or long-term sick leave; or
- (c) the person's employment or contractual arrangement with the Supplier or any subcontractor is terminated.

- (b) ensure that any Key Role is not vacant for any longer than ten (10) Working Days;
- (c) give as much notice as is reasonably practicable of its intention to remove or replace any member of Key Personnel and, except in the cases of death, unexpected ill health or a material breach of the Key Personnel's employment contract, this will mean at least three (3) Months' notice;
- (d) ensure that all arrangements for planned changes in Key Personnel provide adequate periods during which incoming and outgoing staff work together to transfer responsibilities and ensure that such change does not have an adverse impact on the provision of the Deliverables; and
- (e) ensure that any replacement for a Key Role has a level of qualifications and experience appropriate to the relevant Key Role and is fully competent to carry out the tasks assigned to the Key Staff whom they have replaced.

8.8 The Buyer may require the Supplier to remove or procure that any Subcontractor shall remove any Key Personnel that the Buyer considers in any respect unsatisfactory. The Buyer shall not be liable for the cost of replacing any Key Personnel

10. Intellectual Property Rights (IPRs)

10.1 Each Party keeps ownership of its own Existing IPRs. The Supplier gives the Authority a non-exclusive, perpetual, royalty-free, irrevocable, transferable worldwide licence to use, change and sub-license the Supplier's Existing IPR to enable it and its sub-licensees to both:

- (a) receive and use the Deliverables;
- (b) use the New IPR.

10.2 Any New IPR created under the Contract is owned by the Authority. The Authority gives the Supplier a licence to use any Existing IPRs for the purpose of fulfilling its obligations under the Contract and a perpetual, royalty-free, non-exclusive licence to use any New IPRs.

10.3 Where a Party acquires ownership of intellectual property rights incorrectly under this Contract it must do everything reasonably necessary to complete a transfer assigning them in writing to the other Party on request and at its own cost.
