- b. No waiver in respect of any right or remedy shall operate as a waiver in respect of any other right or remedy.

10. Assignment of Contract

Neither Party shall be entitled to assign the Contract (or any part thereof) without the prior written consent of the other Party.

11. Third Party Rights

This process shall be repeated until the parties have an agreed version of the Publishable Performance Information.
- g. The Contractor shall provide an accurate and up-to-date version of the KPI Data Report to the Authority for each quarter at the frequency referred to in the agreed Schedule 9.
- h. Any dispute in connection with the preparation and/or approval of Publishable Performance Information, other than under clause 12.f, shall be resolved in accordance with the dispute resolution procedure provided for in this Contract.
- i. The requirements of this Condition are in addition to any other reporting requirements in this Contract.

13. Disclosure of Information

- a. Subject to clauses 13.d to 13.i and Condition 12 each Party:
 - (1) shall treat in confidence all Information it receives from the other;
 - (2) shall not disclose any of that Information to any third party without the prior written consent of the other Party, which consent shall not unreasonably be withheld, except that the Contractor may disclose Information in confidence, without prior consent, to such persons and to such extent as may be necessary for the performance of the Contract;
 - (3) shall not use any of that Information otherwise than for the purpose of the Contract; and
 - (4) shall not copy any of that Information except to the extent necessary for the purpose of exercising its rights of use and disclosure under the Contract.
- b. The Contractor shall take all reasonable precautions necessary to ensure that all Information disclosed to the Contractor by or on behalf of the Authority under or in connection with the Contract:
 - (1) is disclosed to their employees and Subcontractors, only to the extent necessary for the performance of the Contract;and
 - (2) is treated in confidence by them and not disclosed except with the prior written consent of the Authority or used otherwise than for the purpose of performing work or having work performed for the Authority under the Contract or any subcontract.

- c. The Contractor shall ensure that their employees are aware of the Contractor's arrangements for discharging the obligations at clauses 13.a and 13.b before receiving Information and shall take such steps as may be reasonably practical to enforce such arrangements.
- d. A Party shall not be in breach of Clauses 13.a, 13.b, 13.f, 13.g and 13.h to the extent that either Party:
- (1) exercises rights of use or disclosure granted otherwise than in consequence of, or under, the Contract;
 - (2) has the right to use or disclose the Information in accordance with other Conditions of the Contract; or
 - (3) can show:
 - (a) that the Information was or has become published or publicly available for use otherwise than in breach of any provision of the Contract or any other agreement between the Parties;
 - (b) that the Information was already known to it (without restrictions on disclosure or use) prior to receiving the Information under or in connection with the Contract;
 - (c) that the Information was received without restriction on further disclosure from a third party which lawfully acquired the Information without any restriction on disclosure; or

- e. Neither Party shall be in breach of this Condition where it can show that any disclosure of Information was made solely and to the extent necessary to comply with a statutory, judicial or parliamentary obligation. Where such a disclosure is made, the Party making the disclosure shall ensure that the recipient of the Information is made aware of and asked to respect its confidentiality. Such disclosure shall in no way diminish the obligations of the Parties under this Condition.
- f. The Authority may disclose the Information:
- (1) to any Central Government Body for any proper purpose of the Authority or of the relevant Central Government Body, which shall include: disclosure to the Cabinet Office and/or HM Treasury for the purpose of ensuring effective cross-Government procurement processes, including value for money and related purposes. Where such a disclosure is made the Authority shall ensure that the recipient is made aware of its confidentiality;
 - (2) to Parliament and Parliamentary Committees or if required by any Parliamentary reporting requirement;
 - (3) to the extent that the Authority (acting reasonably) deems disclosure necessary or appropriate in the course of carrying out its public functions;
 - (4) subject to clause 13.g below, on a confidential basis to a professional adviser, consultant or other person engaged by any of the entities defined in Schedule 1 (including benchmarking organisations) for any purpose relating to or connected with the Contract;

- and for the purposes of the foregoing, references to disclosure on a confidential basis shall mean disclosure subject to a confidentiality agreement or arrangement containing terms no less stringent than those placed on the Authority under this Condition.

- g. Where the Authority intends to disclose Information to a commercial entity which is not a Central Government Body in accordance with clauses 13.f.(4) or 13.f.(5) above, the Authority will endeavour to provide the Contractor with 3 Business Days' notice in advance of such disclosure. In relation to a disclosure of Information made under clause 13.f.(3) above, if reasonably requested by the Contractor within 2 Business Days of such notice being given, where the Authority has not already done so, it will endeavour to procure from the intended recipient of the Information an agreement containing confidentiality terms the same as, or substantially similar to, those placed on the Authority under this Condition.
- h. Before sharing any Information in accordance with clause 13.f, the Authority may redact the Information. Any decision to redact Information made by the Authority shall be final.
- i. The Authority shall not be in breach of the Contract where disclosure of Information is made solely and to the extent necessary to comply with the Freedom of Information Act 2000 (the "Act") or the Environmental Information Regulations 2004 (the "Regulations"). To the extent permitted by the time for compliance under the Act or the Regulations, the Authority shall consult the Contractor where the Authority is considering the disclosure of Information under the Act or the Regulations and, in any event, shall provide prior notification to the Contractor of any decision to disclose the Information. The Contractor acknowledges and accepts that their representations on disclosure during consultation may not be determinative and that the decision whether to disclose Information in order to comply with the Act or the Regulations is a matter in which the Authority shall exercise its own discretion, subject always to the provisions of the Act or the Regulations.
- j. Nothing in this Condition shall affect the Parties' obligations of confidentiality where Information is disclosed orally in confidence.

14. Publicity and Communications with the Media

Such concerns may include but are not limited to potential threats to national security and security of supply. The Contractor shall not be required to submit any notice which is unlawful or is in breach of either any pre-existing non-disclosure agreement or any regulations governing the conduct of the Contractor in the UK or other jurisdictions where the Contractor may be subject to legal sanction arising from issuing such a notice.

e. To the extent that the Authority considers that it is reasonable to do so, the Authority shall work with the Contractor to seek to resolve the Authority's concerns. The Contractor agrees to answer the Authority's questions or requests for clarification promptly.

f. Where the Authority considers, in its absolute discretion, that the risk may be appropriately mitigated, the Contractor shall implement any agreed mitigations promptly and, in any case, within the timescales required by the Authority. Where the Contractor fails to do so, clause 17.g. shall apply.

h. Where the Authority terminates the Contract in accordance with clause 17.g, subject to clause 17.i, the Contractor may request payment for any unavoidable commitments, liabilities or expenditure incurred by the Contractor in connection with the Contract up to the point of termination. The Authority shall act reasonably when assessing the Contractor's request for payment although the parties agree that the Authority shall retain the sole discretion, acting reasonably, to decide whether to make such requested payment in accordance with clause 17.i.

i. Any requests for payment by the Contractor must be submitted promptly and the Contractor shall demonstrate to the reasonable satisfaction of the Authority that such request for payment:

l. The Contractor shall include provisions equivalent to those set out in this Condition in all relevant sub-contracts.

16. Environmental Requirements

The Contractor shall in all their operations to perform the Contract, adopt a sound proactive environmental approach that identifies, considers, and where possible, mitigates the environmental impacts of their supply chain. The Contractor shall provide evidence of so doing to the Authority on demand.

17. Contractor's Records

a. The Contractor and their Subcontractors shall maintain all records specified in and connected with the Contract (expressly or otherwise) and make them available to the Authority when requested on reasonable notice.

b. The Contractor and their Subcontractors shall also permit access to relevant records that relate to the contractual obligations to supply goods or services under the Contract, held

by or controlled by them and reasonably required by the Comptroller and Auditor General, their staff and any appointed representative of the National Audit Office, and provide such explanations and information as reasonably necessary for the following purposes:

- a. If any of the Contractor Deliverables Delivered to the Authority do not conform to the Specification or any other terms of the Contract, then (without limiting any other right or remedy that the Authority may have) the Authority may reject the Contractor Deliverables (in whole or in part). The Authority shall return these Contractor Deliverables to the Contractor at the Contractor's risk and cost.
- b. Rejection of any of the Contractor Deliverables under clause 30.a shall take place by the time limit for rejection specified in Schedule 3 (Contract Data Sheet), or if no such period is specified, the Contractor Deliverables shall be deemed to be accepted within a reasonable period of time.

Counterfeit Materiel:

- c. Where the Authority suspects that any Contractor Deliverable or consignment of Contractor Deliverables contains Counterfeit Materiel, it shall:
- (1) notify the Contractor in writing of its suspicion and reasons therefore;
 - (2) where reasonably practicable, and if requested by the Contractor within 10 Business Days of such notification, (at the Contractor's own risk and expense and subject to any reasonable controls specified by the Authority) afford the Contractor the facility to (i) inspect the Contractor Deliverable or consignment and/or (ii) obtain a sample thereof for validation or testing purposes.
 - (3) at its discretion, provide the Contractor with a sample of the Contractor Deliverable or consignment for validation or testing purposes by the Contractor (at the Contractor's own risk and expense);

 - (5) determine, on the balance of probabilities and strictly on the evidence available to it at the time, whether the Contractor Deliverable or consignment meets the definition of Counterfeit Materiel.
- d. Where the Authority has determined that the Contractor Deliverable, part or consignment of Contractor Deliverables contain Counterfeit Material then it may reject the Contractor Deliverable, part or consignment under 30.a and 30.b (Rejection), and provide written notification to the Contractor of the rejection.
- e. In addition to its rights under 30.a and 30.b (Rejection), where the Authority has determined that any Contractor Deliverable or consignment of Contractor Deliverables contains Counterfeit Materiel, it shall be entitled to:
- (1) retain any Counterfeit Materiel; and/or
 - (2) retain the whole or any part of such Contractor Deliverable or consignment where it is not possible to separate the Counterfeit Materiel from the rest of the

- Contractor Deliverable, or consignment;
and such retention shall not constitute acceptance under Condition 29 (Acceptance).
- f. Where the Authority intends to exercise its rights under clause 30.e, the Contractor may, subject to the agreement of the Authority (and at the Contractor's own risk and expense and subject to any reasonable controls and timeframe agreed), arrange for:
- (1) the separation of Counterfeit Materiel from any Contractor Deliverable or part of a Contractor Deliverable; and/or
 - (2) the removal of any Contractor Deliverable or part of a Contractor Deliverable that the Authority is reasonably satisfied does not contain Counterfeit Materiel.
- g. In respect of any Contractor Deliverable, consignment or part thereof that is retained in accordance with clause 30.e, including where the Authority permits the Contractor to remove non-Counterfeit Materiel under clause 30.f but the Contractor fails to do so within the period agreed and subject to clause 30.k, the Authority shall be entitled to exercise any, all, or any combination of, the following rights:

- i. The Authority shall not use a retained Contractor Deliverable or consignment other than as permitted in clauses 30.c – 30.k.
- j. The Authority may report a discovery of Counterfeit Materiel and disclose information necessary for the identification of similar materiel and its possible sources.
- k. The Contractor shall not be entitled to any payment or compensation from the Authority as a result of the Authority exercising the rights set out in clauses 30.c – 30.k except:
- (1) in relation to the balance that may accrue to the Contractor in accordance with clause 30.h; or

31. Diversion Orders

- a. The Authority shall notify the Contractor at the earliest practicable opportunity if it becomes aware that a Contractor Deliverable is likely to be subject to a Diversion Order.
- b. The Authority may issue a Diversion Order for the urgent delivery of the Contractor Deliverables identified in it. These Contractor Deliverables are to be delivered by the Contractor using the quickest means available as agreed by the Authority.
- c. The Authority reserves the right to cancel the Diversion Order.
- d. If the terms of the Diversion Order are unclear, the Contractor shall immediately contact

the Representative of the Authority who issued it for clarification and/or further instruction.

e. If the Diversion Order increases the quantity of Contractor Deliverables beyond the scope of the Contract, it is to be returned immediately to the Authority's Commercial Officer with an appropriate explanation.

f. The Contractor shall be entitled to reasonable additional delivery and packaging costs incurred in complying with the Diversion Order or cancellation. Claims are to be submitted by the Contractor to the Authority's Commercial Officer together with applicable receipts and agreed as an amendment to the Contract in accordance with Condition 6 (Formal Amendments to the Contract). The Contractor shall comply with the requirements of the Diversion Order upon receipt of the Diversion Order.

32. Self-to-Self Delivery

Where it is stated in Schedule 3 (Contract Data Sheet) that any Contractor Deliverable is to be Delivered by the Contractor to their own premises, or to those of a Subcontractor ('self-to-self delivery'), the risk in such a Contractor Deliverable shall remain vested in the Contractor until such time as it is handed over to the Authority.

Licences and Intellectual Property

33. Import and Export Licences

a. If, in the performance of the Contract, the Contractor needs to import into the UK or export out of the UK anything not supplied by or on behalf of the Authority and for which a UK import or export licence is required, the responsibility for applying for the licence shall rest with the Contractor. The Authority shall provide the Contractor with sufficient information, certification, documentation and other reasonable assistance in obtaining any necessary UK import or export licence.

b. When an export licence or import licence or authorisation either singularly or in combination is required from a foreign government for the performance of the Contract, the Contractor shall as soon as reasonably practicable consult with the Authority on the licence requirements. Where the Contractor is the applicant for the licence or authorisation the Contractor shall:

(1) ensure that when end use or end user restrictions, or both, apply to all or part of any Contractor Deliverable (which for the purposes of this Condition shall also include information, technical data and software), the Contractor, unless otherwise agreed with the Authority, shall identify in the application:

(a) the end user as: His Britannic Majesty's Government of the United Kingdom of Great Britain and Northern Ireland (hereinafter "HM Government"); and

(b) the end use as: For the Purposes of HM Government; and

(2) include in the submission for the licence or authorisation a statement that "information on the status of processing this application may be shared with the Ministry of Defence of the United Kingdom".

c. If the Contractor or any Subcontractor in the performance of the Contract needs to export materiel not previously supplied by or on behalf of the Authority for which an export licence or import licence or authorisation from a foreign government is required, the responsibility for instituting expeditious action to apply for and obtain the licence shall rest with the Contractor or that Subcontractor. For the purposes of this Condition materiel shall mean information, technical data and items, including Contractor Deliverables, components of Contractor Deliverables and software.

d. Where the Contract performance requires the export of materiel for which a foreign export licence or import licence or authorisation is required, the Contractor shall include the dependencies for the export licence or import licence or authorisation application, grant and maintenance in the Contract risk register and in the risk management plan for the Contract,

with appropriate review points. Where there is no requirement under the Contract for a risk management plan the Contractor shall submit this information to the Authority's representative.

e. During the term of the Contract and for a period of up to 2 years from completion of the Contract, the Authority may make a written request to the Contractor to seek a variation to the conditions to a foreign export licence or import licence or authorisation to enable the Authority to re-export or re-transfer a licensed or authorised item or licensed or authorised information from the UK to a non-licensed or unauthorised third party. If the Authority makes such a request it will consult with the Contractor before making a determination of whether the Authority or the Contractor is best placed in all the circumstance to make the request. Where, subsequent to such consultation the Authority notifies the Contractor that the Contractor is best placed to make such request:

(1) the Contractor shall, or procure that the Contractor's Subcontractor shall, expeditiously consider whether or not there is any reason why it should object to making the request and, where it has no objection, file an application to seek a variation of the applicable export licence or import licence or authorisation in accordance with the procedures of the licensing authority. Where the Contractor has an objection, the Parties shall meet within five (5) working days to resolve the issue and should they fail the matter shall be escalated to an appropriate level within both Parties' organisations, to include their respective export licensing subject matter experts; and

(2) the Authority shall provide sufficient information, certification, documentation and other reasonable assistance as may be necessary to support the application for the requested variation.

f. Where the Authority determines that it is best placed to make such request the Contractor shall provide sufficient information, certification, documentation and other reasonable assistance as may be necessary to support the Authority to make the application for the requested variation.

g. Where the Authority invokes clause 33.e or 33.f the Authority will pay the Contractor a fair and reasonable charge for this service based on the cost of providing it.

h. Where the Contractor subcontracts work under the Contract, which is likely to be subject to foreign export control, import control or both the Contractor shall use reasonable endeavours to incorporate in each subcontract equivalent obligations to those set out in this Condition. Where it is not possible to include equivalent terms to those set out in this Condition, the Contractor shall report that fact and the circumstances to the Authority.

i. Without prejudice to HM Government's position on the validity of any claim by a foreign government to extra-territoriality, the Authority shall provide the Contractor with sufficient information, certification, documentation and other reasonable assistance to facilitate the granting of export licences or import licences or authorisations by a foreign Government in respect of the performance of the Contract.

j. The Authority shall provide such assistance as the Contractor may reasonably require in obtaining any UK export licences necessary for the performance of the Contract.

k. The Contractor shall use reasonable endeavours to identify whether any Contractor Deliverable is subject to:

(1) a non-UK export licence, authorisation or exemption; or

(2) any other related transfer or export control,

that imposes or will impose end use, end user or re-transfer or re-export restrictions, or restrictions on disclosure to individuals based upon their nationality. This does not include the Intellectual Property-specific restrictions of the type referred to in Condition 34 (Third Party Intellectual Property – Rights and Restrictions).

l. If at any time during the term of the Contract the Contractor becomes aware that all or any part of the Contractor Deliverables are subject to clause 33.k.(1) or 33.k.(2), they shall notify the Authority of this as soon as reasonably practicable by providing details in the DEFFORM 528 or other mutually agreed alternative format. Such notification shall be no later

than thirty (30) days of knowledge of any affected Contractor Deliverable and in any event such notification shall be not less than thirty (30) days prior to delivery of the Contractor Deliverables.

m. If the information to be provided under clause 33.l has been provided previously to the Authority by the Contractor under the Contract, the Contractor may satisfy these requirements by giving details of the previous notification and confirming they remain valid and satisfy the provisions of clause 33.l.

n. During the term of the Contract, the Contractor shall notify the Authority as soon as reasonably practicable of any changes in the information notified previously under clauses 33.l or 33.m of which they become or are aware that would affect the Authority's ability to use, disclose, re-transfer or re-export an item or part of it as is referred to in those clauses by issuing an updated DEFFORM 528 to the Authority.

o. For a period of up to 2 years from completion of the Contract and in response to a specific request by the Authority, the Contractor shall notify the Authority as soon as reasonably practicable of any changes in the information notified previously under clause 33.l or 33.m of which they become aware that would affect the Authority's ability to use, disclose, re-transfer or re-export

an item or part of it as is referred to in those clauses by issuing an updated DEFFORM 528 to the Authority.

p. Where following receipt of materiel from a Subcontractor or any of their other suppliers restrictions are notified to the Contractor by that Subcontractor, supplier or other third party or are identified by the Contractor, the Contractor shall immediately inform the Authority by issuing an updated DEFFORM 528. Within [X] days of such notification, the Contractor shall propose to the Authority actions to mitigate the impact of such restrictions. Such proposals may include, where appropriate, mutually supported attempts to obtain removal or modification to the restrictions or to obtain appropriate authorisations from the relevant foreign government. The Authority shall notify the contractor within [X] days of receipt of a proposal whether it is acceptable and where appropriate the Contract shall be modified in accordance with its terms to implement the proposal.

q. If the restrictions prevent the Contractor from performing their obligations under the Contract and have not been removed, modified or otherwise satisfactorily managed within a reasonable time, the Authority may at its absolute discretion elect to amend the contract in accordance with Condition 6 or as otherwise may be provided by the Contract, or to terminate the Contract. Except as set out in clause 33.r, in the event of termination in these circumstances termination shall be on fair and reasonable terms having regard to all the circumstances including payments already made and that would otherwise be due under the Contract, costs incurred by the Contractor and benefits received by the Authority. The Parties, acting in good faith, will use all reasonable endeavours to agree such fair and reasonable terms failing which either Party may refer the matter to dispute resolution in accordance with the provisions in the Contract.

r. In the event that the restrictions notified to the Authority pursuant to clause 33.l were known or ought reasonably have been known by the Contractor (but were not disclosed) at contract award or if restrictions notified to the Authority pursuant to clauses 33.n or 33.p were known or ought reasonably to have been known by the Contractor at the date of submission of the most recent DEFFORM 528 submitted to the Authority in accordance with clause 33.l, termination under clause 33.q will be in accordance with Condition 43 (Material Breach) and the provisions of clause 33.v will not apply.

s. The Authority shall use reasonable endeavours to identify any export control restrictions applying to materiel to be provided to the Contractor as Government Furnished Assets (GFA). Where the Authority is to provide materiel necessary to enable the Contractor to perform the Contract or in respect of which the Services are to be provided, and that materiel is subject to a non-UK export licence, authorisation, exemption or other related transfer or export control as described in the provisions of clause 32.k, the Authority shall provide a completed DEFFORM

528 or will provide a new or updated DEFFORM 528 to the Contractor within thirty (30) days of the date of knowledge and in any case not later than thirty (30) days prior to the delivery of such material to the Contractor.

t. In the event that the Authority becomes aware that the DEFFORM 528 disclosure was incomplete or inaccurate or in the event additional such material is identified then the Authority shall provide, as soon as reasonably practicable a new or revised DEFFORM 528. In the event that the Authority becomes aware that a prior disclosure included in DEFFORM 528 submitted to the Contractor was incomplete or inaccurate less than thirty (30) days prior to the delivery to the Contractor of any material to which the updated or new disclosure relates, the Parties will meet as soon as reasonably practicable to discuss how to mitigate the impact of the incomplete or inaccurate disclosure.

u. Where:

- (1) restrictions are advised by the Authority to the Contractor in a DEFFORM 528 provided pursuant to clauses 33.s or 33.t or both; or
- (2) any of the information provided by the Authority in any DEFFORM 528 proves to be incorrect or inaccurate;

the Authority and the Contractor shall act promptly to mitigate the impact of such restrictions or incorrect or inaccurate information. Such mitigation shall include, where appropriate, mutually supported attempts to obtain removal or modification to the restrictions or to obtain appropriate authorisations from the relevant foreign government. If the restrictions or incorrect or inaccurate information adversely affect the ability of the Contractor to perform their obligations under the Contract, the matter shall be handled under the terms of Condition 6 (Formal Amendments to the Contract) or as may otherwise be provided by the Contract as appropriate and if no alternative solution satisfies the essential terms of the Contract and the restrictions have not been removed, modified or otherwise satisfactorily managed within a reasonable time the Authority may terminate the Contract. Termination under these circumstances will be under the terms of Condition 42 (Termination for Convenience) and as referenced in the Contract.

v. Pending agreement of any amendment of the Contract as set out in clause 33.q or 33.u, provided the Contractor takes such steps as are reasonable to mitigate the impact, the Contractor shall be relieved from their obligations to perform those elements of the Contract directly affected by the restrictions or provision of incorrect or incomplete information.

34. Third Party Intellectual Property – Rights and Restrictions

a. The Contractor and, where applicable any Subcontractor, shall promptly notify the Authority as soon as they become aware of:

- (1) any invention or design the subject of patent or registered Design Rights (or application thereof) owned by a third party which appears to be relevant to the performance of the Contract or to use by the Authority of anything required to be done or delivered under the Contract;
- (2) any restriction as to disclosure or use, or obligation to make payments in respect of any other intellectual property (including technical Information) required for the purposes of the Contract or subsequent use by the Authority of anything delivered under the Contract and, where appropriate, the notification shall include such Information as is required by Section 2 of the Defence Contracts Act 1958;
- (3) any allegation of infringement of intellectual property rights made against the Contractor and which pertains to the performance of the Contract or subsequent use by the Authority of anything required to be done or delivered under the Contract.

clause 34.a does not apply in respect of Contractor Deliverables normally available from the Contractor as a Commercial Off The Shelf (COTS) item or service.

b. If the Information required under clause 34.a has been notified previously, the Contractor may meet their obligations by giving details of the previous notification.

c. For COTS Contractor Deliverables patents and registered designs in the UK, in respect of any question arising (by way of an allegation made to the Authority or Contractor, or otherwise) that the manufacture or provision under the Contract of Contractor Deliverables normally available from the Contractor as a COTS item or service is an infringement of a UK patent or registered design not owned or controlled by the Contractor or the Authority, the Contractor shall, subject to the agreement of the third party owning such patent or registered design, be given exclusive conduct of any and all negotiations for the settlement of any claim or the conduct of any litigation arising out of such question. The Contractor shall indemnify the Authority, its officers, agents and

employees against any liability and cost arising from such allegation. This Condition shall not apply if:

- (2) the Authority has entered or enters into any discussions on such question with any third party without the prior written agreement of the Contractor;
- (3) the Authority has entered or enters into negotiations in respect of any relevant claim for compensation in respect of Crown Use under Section 55 of the Patents Act 1977 or Section 12 of the Registered Designs Act 1949;
- (4) legal proceedings have been commenced against the Authority or the Contractor in respect of Crown Use, but only to the extent of such Crown Use that has been properly authorised.

d. The indemnity in clause 34.c does not extend to use by the Authority of anything supplied under the Contract where that use was not reasonably foreseeable at the time of the Contract.

e. In the event that the Authority has entered into negotiation in respect of a claim for compensation, or legal proceedings in respect of the Crown Use have commenced, the Authority shall forthwith authorise the Contractor for the purposes of performing the Contract (but not otherwise) to utilise a relevant invention or design in accordance with Sections 55 and 56 of the Patents Act 1977 or Section 12 of the Registered Designs Act 1949 and to use any model, document or information relating to any such invention or design which may be required for that purpose.

f. For all other Contractor Deliverables patents and registered designs in the UK, if a relevant invention or design has been notified to the Authority by the Contractor prior to the Effective Date of Contract, then unless it has been otherwise agreed, under the provisions of Sections 55 and 56 of the Patents Act 1977 or Section 12 of the Registered Designs Act 1949, the Contractor is hereby authorised to utilise that invention or design, notwithstanding the fact that it is the subject of a UK Patent or UK Registered Design, for the purpose of performing the Contract.

g. If, under clause 34.a, a relevant invention or design is notified to the Authority by the Contractor after the Effective Date of Contract, then:

- (1) if the owner (or its exclusive licensee) takes or threatens in writing to take any relevant action against the Contractor, the Authority shall issue to the Contractor a written authorisation in accordance with the provisions of Sections 55 and 56 of the Patents Act 1977 or Section 12 of the Registered Designs Act 1949, and
- (2) in any event, unless the Contractor and the Authority can agree an alternative course of action, the Authority shall not unreasonably delay the issue of a written authorisation in accordance with the provisions of Sections 55 and 56 of the Patents Act 1977 or Section 12 of the Registered Designs Act 1949.

h. The Authority shall assume all liability and shall indemnify the Contractor, their officers, agents and employees against liability, including the Contractor's costs, as a result of infringement by the Contractor or their suppliers of any patent, utility model, registered design or like protection outside the United Kingdom in the performance of the Contract when such infringement arises from or is incurred by reason of the Contractor following any specification,

statement of work or instruction in the Contract or using, keeping or disposing of any item given by the Authority for the purpose of the Contract in accordance with the Contract.

i. The Contractor shall assume all liability and shall indemnify the Authority, its officers, agents and employees against liability, including the Authority's costs, as a result of infringement by the Contractor or their suppliers of any patent, utility model, registered design or like protection outside the UK in the performance of the Contract when such infringement arises from or is incurred otherwise than by reason of the Contractor following any specification, statement of work or instruction in the Contract or using, keeping or disposing of any item given by the Authority for the purpose of the Contract in accordance with the Contract.

j. The Contractor shall not be entitled to any reimbursement of any royalty, licence fee or similar expense incurred in respect of anything to be done under the Contract, where:

- (1) a relevant discharge has been given under Section 2 of the Defence Contracts Act 1958, or relevant authorisation in accordance with Sections 55 or 57 of the Patents Act 1977, Section 12 of the Registered Designs Act 1949 or Section 240 of the Copyright, Designs and Patents Act 1988 in respect of any intellectual property; or
- (2) any obligation to make payments for intellectual property has not been promptly notified to the Authority under clause 34.a.

- (1) released from payment whether by way of royalties, licence fees or similar expenses in respect of the Contractor's use of the relevant invention or design, or the use of any relevant model, document or information for the purpose of performing the Contract; and
- (2) authorised to use any model, document or information relating to any such invention or design which may be required for that purpose.

l. The Contractor shall assume all liability and indemnify the Authority and its officers, agents and employees against liability, including costs as a result of:

- (1) infringement or alleged infringement by the Contractor or their suppliers of any copyright, database right, Design Right or the like protection in any part of the world in respect of any item to be supplied under the Contract or otherwise in the performance of the Contract;
- (2) misuse of any confidential information, trade secret or the like by the Contractor in performing the Contract;
- (3) provision to the Authority of any Information or material which the Contractor does not have the right to provide for the purpose of the Contract.

m. The Authority shall assume all liability and indemnify the Contractor, their officers, agents and employees against liability, including costs as a result of:

- (1) infringement or alleged infringement by the Contractor or their suppliers of any copyright, database right, Design Right or the like protection in any part of the world in respect of any item provided by the Authority for the purpose of the Contract but only to the extent that the item is used for the purpose of the Contract;
- (2) alleged misuse of any confidential Information, trade secret or the like by the Contractor as a result of use of Information provided by the Authority for the purposes of the Contract, but only to the extent that Contractor's use of that Information is for the purposes intended when it was disclosed by the Authority.

n. The general authorisation and indemnity is:

The notification shall include particulars of the demands, damages and liabilities claimed or made of which the notifying Party has notice;
 - (4) the Party benefiting from the indemnity or authorisation shall allow the other Party, at its own expense, to conduct any negotiations for the settlement of the same, and any litigation that may arise therefrom and shall provide such information as the other Party may reasonably require;
 - (5) following a notification under clause 34.n.(3), the Party notified shall advise the other Party in writing within thirty (30) Business Days whether or not it is assuming conduct of the negotiations or litigation. In that case the Party against whom a claim is made or action brought shall not make any statement which might be prejudicial to the settlement or defence of such a claim without the written consent of the other Party;
 - (6) the Party conducting negotiations for the settlement of a claim or any related litigation shall, if requested, keep the other Party fully informed of the conduct and progress of such negotiations.
- o. The Parties will co-operate with one another to mitigate any claim or damage which may arise from use of third party IPR.
- p. Nothing in Condition 34 shall be taken as an authorisation or promise of an authorisation under Section 240 of the Copyright, Designs and Patents Act 1988.
- q. Notwithstanding any other provisions of the Contract and for the avoidance of doubt, award of the Contract by the Authority and placement of any contract task under it does not constitute an authorisation by the Crown under Sections 55 and 56 of the Patents Act 1977 or Section 12 of the Registered Designs Act 1949. Payment for Contractor Deliverables will be made by electronic transfer and prior to submitting any claims for payment under clause 36.b the Contractor will be required to register their details (Supplier on-boarding) on the Contracting, Purchasing and Finance (CP&F) electronic procurement tool.
- b. Where the Contractor submits an invoice to the Authority in accordance with clause 36.a, the Authority will consider and verify that invoice in a timely fashion.
- c. The Authority shall pay the Contractor any sums due under such an invoice no later than a period of 30 days from the date on which the Authority has determined that the invoice is valid and undisputed.
- d. Where the Authority fails to comply with clause 36.a and there is undue delay in considering and verifying the invoice, the invoice shall be regarded as valid and undisputed for the purpose of clause 36.c after a reasonable time has passed.
- e. The approval for payment of a valid and undisputed invoice by the Authority shall not be construed as acceptance by the Authority of the performance of the Contractor's obligations nor as a waiver of its rights and remedies under the Contract.
- f. Without prejudice to any other right or remedy, the Authority reserves the right to set off any amount owing at any time from the Contractor to the Authority against any amount payable by the Authority to the Contractor under the Contract or under any other contract with the Authority, or with any other Government Department.

37. Value Added Tax

- a. The Contract Price excludes any UK output Value Added Tax (VAT) and any similar EU (or non-EU) taxes chargeable on the supply of Contractor Deliverables by the Contractor to the Authority.
- b. If the Contractor is required by UK VAT law to be registered for UK VAT (or has registered voluntarily) in respect of their business activities at the time of any supply, and the circumstances of any supply are such that the Contractor is liable to pay the tax due to HM Revenue and Customs (HMRC), the Authority shall pay to the Contractor in addition to the Contract Price (or any other sum due to the Contractor) a sum equal to the output VAT chargeable on the tax value of the supply of Contractor Deliverables, and all other payments under the Contract according to the law at the relevant tax point.
- c. The Contractor is responsible for the determination of VAT liability. The Contractor shall consult their Client Relationship Manager or the HMRC Enquiries Desk (and not the Authority's Representative (Commercial)) in cases of doubt. The Contractor shall notify the Authority's Representative (Commercial) of the Authority's VAT liability under the Contract, and any changes to it, within twenty (20) Business Days of becoming aware the liability is other than at the standard rate of VAT. In the event of any doubt about the applicability of the tax in such cases, the Authority may require the Contractor to obtain, and pass to the Authority, a formal ruling from HMRC. The Contractor shall comply promptly with any such requirement. Where the Contractor obtains a ruling from HMRC, they shall supply a copy to the Authority within three (3) Business Days of receiving that ruling unless they propose to challenge the ruling.

Where the Contractor challenges the ruling they shall supply to the Authority a copy of any final decisions issued by HMRC on completion of the challenge within three (3) Business Days of receiving the decision.

d. Where supply of Contractor Deliverables comes within the scope of UK VAT, but the Contractor is not required by UK VAT law to be registered for UK VAT (and has not registered voluntarily), the Authority shall be responsible for assessing and paying over directly to HMRC any UK output VAT due in respect of the Contractor Deliverables. The Contractor shall be responsible for ensuring they take into account any changes in VAT law regarding registration.

e. Where Contractor Deliverables are deemed to be supplied to the Authority outside the UK, the Contractor may be required by the laws of the country where the supply takes place to register there for EU (or non-EU) turnover or similar tax. In that event, the Authority shall pay to the Contractor in addition to the Contract Price (and any other sum due to the Contractor under the Contract) a sum equal to the tax the Contractor is liable to pay to the tax authorities of the country in question in relation to the Contractor Deliverables within thirty (30) calendar days of a written request for payment of any such sum by the Contractor.

f. In relation to the Contractor Deliverables supplied under the Contract the Authority shall not be required to pay any sum in respect of the Contractor's input VAT (or similar EU or non-EU or both input taxes). However, these input taxes will be allowed where it is established that, despite the Contractor having taken all reasonable steps to recover them, it has not been possible to do so. Where there is any doubt that the Contractor has complied with this requirement the matter shall be resolved in accordance with Condition 40 (Dispute Resolution).

g. Should HMRC decide that the Contractor has incorrectly determined the VAT liability, in accordance with clause 37.b above, the Authority will pay the VAT assessed by HMRC. In the event that HMRC so determines, the Contractor shall pay any interest charged on any assessment or penalties or both directly to HMRC. Such interest or penalties or both shall not be recoverable from the Authority under the Contract or any other contract. The Contractor shall supply the Authority with a copy of all correspondence between HMRC and the Contractor's advisors regarding the VAT assessment within three (3) Business Days of a written request from the Authority for such correspondence.

38. Debt Factoring

a. Subject to the Contractor obtaining the prior written consent of the Authority in accordance with Condition 10 (Assignment of Contract), the Contractor may assign to a third Party ("the Assignee") the right to receive payment of the Contract Price or any part thereof due to the Contractor under the Contract (including interest which the Authority incurred through late payment under the Late Payment of Commercial Debts (Interest) Act 1998 ("the Act")). Any assignment of the right to receive payment of the Contract Price (or any part thereof) under this Condition 38 shall be subject to:

- (1) reduction of any sums in respect of which the Authority exercises its right of recovery under clause 36.f;
- (2) all related rights of the Authority under the Contract in relation to the recovery of sums due but unpaid; and
- (3) the Authority receiving notification under both clauses 38.b and 38.c.(2).

b. In the event that the Contractor obtains from the Authority the consent to assign the right to receive the Contract Price (or any part thereof) under clause 38.a, the Contractor shall notify the Authority in writing of the assignment and the date upon which the assignment becomes effective.

c. The Contractor shall ensure that the Assignee:

- (1) is made aware of the Authority's continuing rights under clauses 38.a.(1) and 38.a.(2); and
- (2) notifies the Authority of the Assignee's contact information and bank account details to which the Authority shall make payment, subject to any reduction made by the

Authority in accordance with clauses 38.a.(1) and 38.a.(2).

d. The provisions of Condition 36 (Payment and Recovery of Sums Due) shall continue to apply in all other respects after the assignment and shall not be amended without the prior approval of the Authority.

39. Subcontracting and Prompt Payment

- (1) providing that where the Subcontractor submits an invoice to the Contractor, the Contractor will consider and verify that invoice in a timely fashion;
- (2) providing that the Contractor shall pay the Subcontractor any sums due under such an invoice no later than a period of thirty (30) days from the date on which the Contractor has determined that the invoice is valid and undisputed;
- (3) providing that where the Contractor fails to comply with clause 39.b.(1) above, and there is an undue delay in considering and verifying the invoice, that the invoice shall be regarded as valid and undisputed for the purposes of clause 39.b.(2) after a reasonable time has passed; and
- (4) requiring the counterparty to that subcontract to include in any subcontract which it awards, provisions having the same effect as clauses 39.b.(1) to 39.b.(4).

a. The Parties will attempt in good faith to resolve any dispute or claim arising out of or relating to the Contract through negotiations between the respective representatives of the Parties having authority to settle the matter, which attempts may include the use of any alternative dispute resolution procedure on which the Parties may agree.

b. In the event that the dispute or claim is not resolved pursuant to clause 40.a the dispute shall be referred to arbitration. Unless otherwise agreed in writing by the Parties, the arbitration and this clause 40.b shall be governed by the Arbitration Act 1996. For the purposes of the arbitration, the arbitrator shall have the power to make provisional awards pursuant to Section 39 of the Arbitration Act 1996.

Purpose

The Schedule of Requirements describes the Nexus to Core requirement for an experienced Contractor that can manage and operate the NEXUS IAC2 Battlelab.

The Nexus to Core Programme seeks to bring NEXUS into service through five separate work packages. This Schedule of Requirement focusses specifically on Work Package 4.

This document sets out the requirement for a Contractor to deliver Work Package 4 - Operate and Grow the Integrated Air Command and Control (IAC2) Battlelab; a component of the Nexus capability. The Contract shall be let for a minimum of five years from the commencement of the Contract (expected to be no later than October 2024), without any extension options.

Nexus Vision

The Royal Air Force seeks to create decision superiority by delivering relevant information and capabilities to warfighters. To enable these benefits, the NEXUS capability will include an on-premises managed, secure, and resilient digital infrastructure to deploy applications that enable warfighters to make timely decisions with speed and quality. The NEXUS digital infrastructure provides integrated solutions for secure processing, connectivity, and data management, that will enable the RAF to leverage the best-in-class commercial and government technologies for data analytics, communications, and other areas.

Background to Nexus

NEXUS began as an Operational Concept Demonstrator (OCD), which included the development of DARKSTAR; an Air Combat Cloud (Digital Cloud Hosting Environment) at OFFICIAL and SECRET. DARKSTAR will rename to the Air Cloud Hosting Environment (ACHE) after its transition from OCD to in-service. The United States Air Force (USAF) have already transitioned the North American Aerospace Defence Command (NORAD) onto the DoD Cloud One architecture¹, using a Cloud-Based Command and Control (CBC2) data fabric, and have begun experimentation and user testing of the CBC2 application layer that uses Artificial Intelligence (AI) and Machine Learning (ML) algorithms to provide decision support, Operational Analysis (OA) and use of AI enhanced risk assessed planning tools. NEXUS will provide the UK with a platform to develop an equivalent and complimentary C2 capability that exploits MOD data to deliver information and decision advantage to the warfighter.

The NEXUS to Core Programme will deliver:

- A cloud hosting environment at SECRET and OFFICIAL.
- A means to access bulk data, refined information, and live data-feeds, at OFFICIAL and SECRET, at the right time.
- A capability readily accessible through existing devices.²
- A capability that can easily exchange information with the USAF's Cloud based C2 system, Advanced Battle Management System (ABMS).
- A capability that is able to scale to meet exponential user demand.

¹ The ACHE is the equivalent of the US Department of Defence (DoD) Cloud One architecture.

² Users can access NEXUS services via MODNet OFFICIAL and SECRET.

NEXUS will:

- Exploit information feeds to ingest data into a digestible format.
- Progressively connect to and exploit the widest possible set of existing and emerging data and information sources; both data-feeds and data repositories to build a comprehensive, timely and relevant COP.
- Support decision making for the commander, from Mission planning to execution.

NEXUS will be an enabling capability which will provide a unified data layer allowing a single, secure, configurable, and flexible display of the Common Operating Picture and Mission Execution information up to Secret Eyes Only (SUKEO).

Through this capability, the efficiency, accuracy, and timeliness of Air C2 in Mission Execution will be increased through the provision of an enhanced Common Operating Picture to enable optimisation of the Air Operations Planning Cycle through a single platform which includes a communication channel. The need for multiple, siloed data feeds displayed across multiple bespoke displays will be removed, limiting the inefficiencies and errors born through users manually combining the relevant information from disparate sources into a single source for C2.

Figure 1 shows how the 11Gp user would interact with NEXUS.

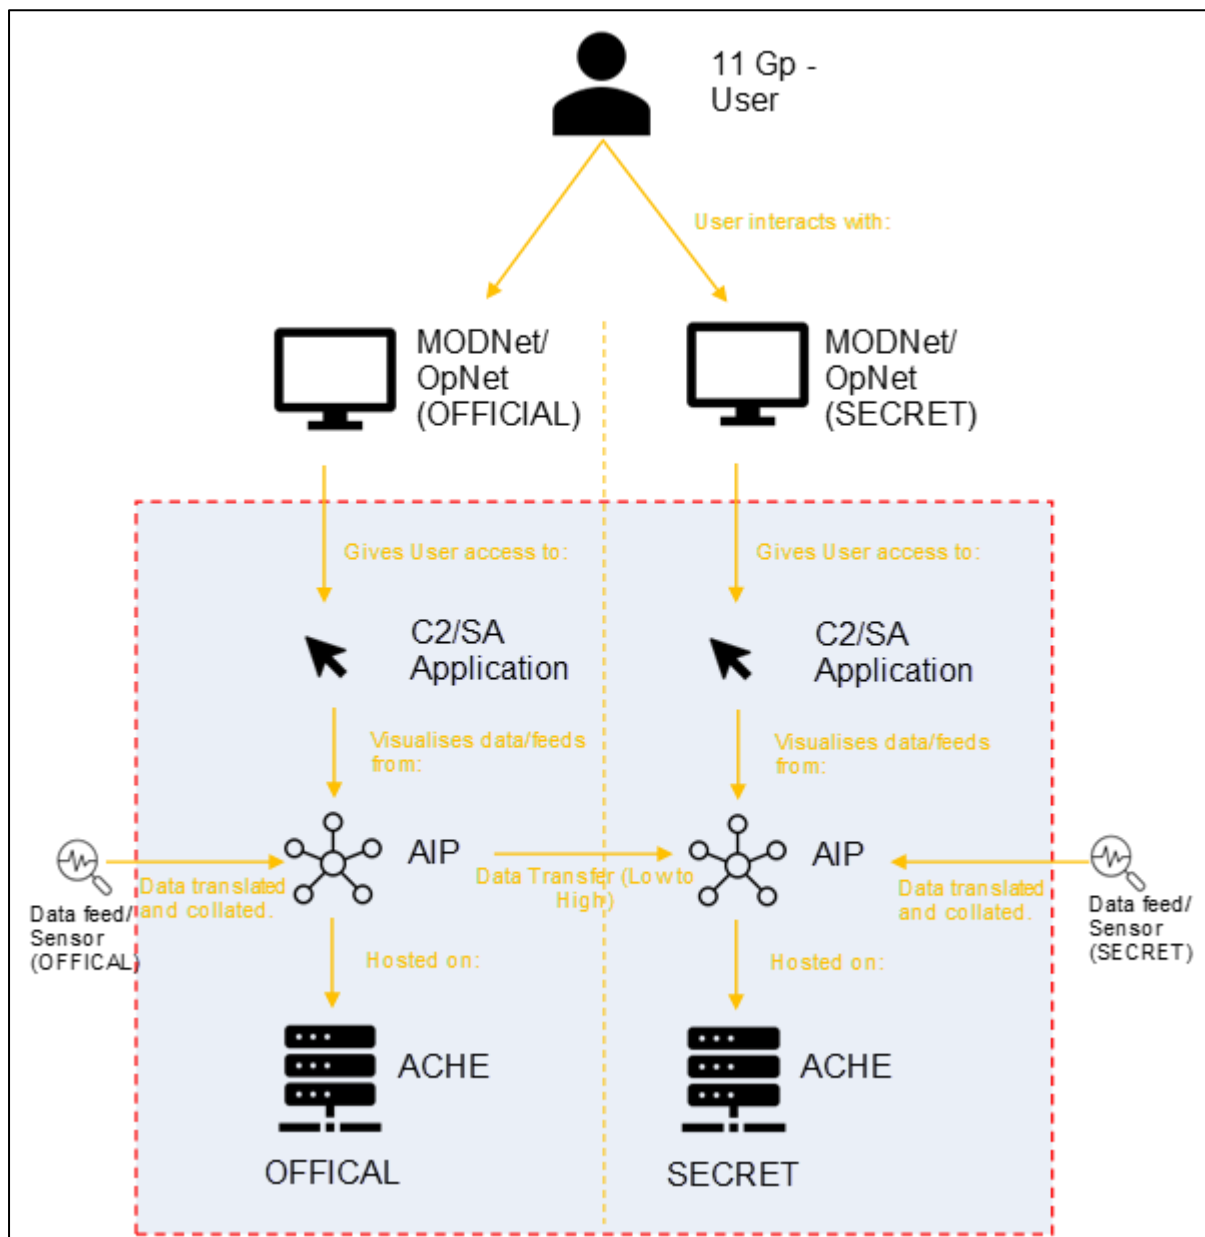

Figure 1. NEXUS User Operating Model

Organisation. The key RAF stakeholder communities with accountability and responsibility for NEXUS are as follows:

- **Capability Sponsor.** The NEXUS to Core Programme Team within Air Capability, overseen by the Senior Responsible Owner (SRO)
- **Delivery Agent.** NEXUS Delivery Team, RAF Digital.
- **Lead Innovator.** Rapid Capabilities Office (RCO), Air Information Experimentation Division (AIX)
- **Lead User.** 11 Group
- **Technical Design Authority (TDA).** NEXUS Delivery Team

NEXUS Components. Due to the breadth of the NEXUS capability, it is best described as a collection of components that when combined create the overall NEXUS capability:

- **Air Cloud Hosting Environment (ACHE).** This is where data will be collated/hosted. The ACHE is made up of specified Cloud stacks (to be built at up to three (3) locations by FOC). This includes the hardware and software required to build and sustain these Clouds. Each location is to have two Cloud stacks to support usage at different classifications (OFFICIAL and SECRET). The ACHE also includes a cross-domain solution³ that provides connectivity between the OFFICIAL and SECRET environments enabling OFFICIAL data to be streamed into the SECRET environment.
- **Air Information Platform (AIP).** This is how data will be translated (into a common format known as the NEXUS Article) and transported from sensors/feeds on to the ACHE. The AIP enables data collection, standardisation, interoperability, and availability.
- **Integrated Air C2 (IAC2) Battlelab.** The IAC2 Battlelab is a capability that will include the use of the AIX CAP-A (OFFICIAL) and CAP-C (SECRET) development and experimentation networks as a hosting environment for an experimental replica of NEXUS. The IAC2 Battlelab will include personnel of appropriate SQEP to support the capability, with the aim to host exercises for the benefit of upskilling the Operational user community and enable exercises with focus on Multi-Domain Integration and interoperability with our allies.
- **NEXUS Enabled C2 Applications.** The Applications will be the capabilities “front end”. These are the applications that the user will use to interact with the data/information held within the NEXUS capability. Applications are to be designed to best suit the user requirements, displaying the data/information in a format that best suits their needs in support of their primary duty. Initial applications to be developed will include a Situational Awareness tool to display data feeds graphically atop a geographical map, and a tool that supports the pre-population of an Air Tasking Orders (ATO) and Air Control Orders (ACO).

NEXUS Approach. The NEXUS to Core Programme has broken down the work required to achieve programmatic aims into work packages. A short outline of each can be seen below:

- **Grow the ACHE.** This work package focusses on the expansion of the ACHE (formerly DARKSTAR) to up to two (2) additional locations for redundancy, as well as the design, delivery, and installation of a resilient solution, able to continue operating and processing local data feeds should network connectivity be lost. The ACHE will support a range of required classifications (OFFICIAL, NATO SECRET and UK SECRET). The ACHE will exploit an assured connection to the MOD Core Network in order to receive OFFICIAL and SECRET data feeds from a range of sources.
- **Sustain the ACHE and AIP.** This work package is to provide a support partner to manage and sustain the ACHE and AIP, including service management, testing, software validation and deployment of AIP software. This work package also includes an integration of the AIP with MDMSS to deliver a deployable NEXUS solution for use by ASOS, and the provision of ACHE and AIP test and reference environments.

³ The DARKSTAR cross-domain solution is called Black Knight.

- **Grow the AIP.** This work package includes the development and delivery of new data feeds, ensuring interoperability with new users, and the creation and management of the NEXUS capability. This will include frequent engagement with key user groups (11Gp) to identify any development activities of operational value, to be delivered in iterations through the Agile development methodology.
- **IAC2 Battlelab.** This work package will use AIX's CAP-A and CAP-C development and experimentation networks as a hosting environment for an experimental replica of NEXUS known as the Battlelab. This will be used in support of exercises, including interoperability exercises with allies. This work package will also see the expansion of this experimental/exercise network to other locations of user need in support of exercise activity, and connectivity to the JMNIAN network to enable collaborative distributed exercises.
- **NEXUS Enabled C2 Applications.** This work package focusses on the development of web-based applications⁴. Using the data/information collated within the AIP and hosted on the ACHE, these applications are to be the visualisation and interaction layer for the user⁵, making the data and digital tools available in a format fit for the user's requirements.

DARKSTAR OCD. The ACHE (currently the DARKSTAR OCD) is made up of two Cloud stacks to support usage at different classifications (OFFICIAL and SECRET). The OFFICIAL stack is called Black Bishop and the SECRET stack is called Red Bishop. The ACHE also includes a cross-domain solution (CDS)⁶ that provides connectivity between the OFFICIAL and SECRET environments enabling OFFICIAL data to be streamed into the SECRET environment. The CDS is called Black Knight.

As part of the OCD, AIP has been deployed onto the ACHE with numerous data feeds already onboarded. The OCD also provides a single C2 application called Esper installed on the ACHE and accessible from a MODNet UAD. Esper is a situational awareness tool that enables the user to view data feeds across a geographical map.

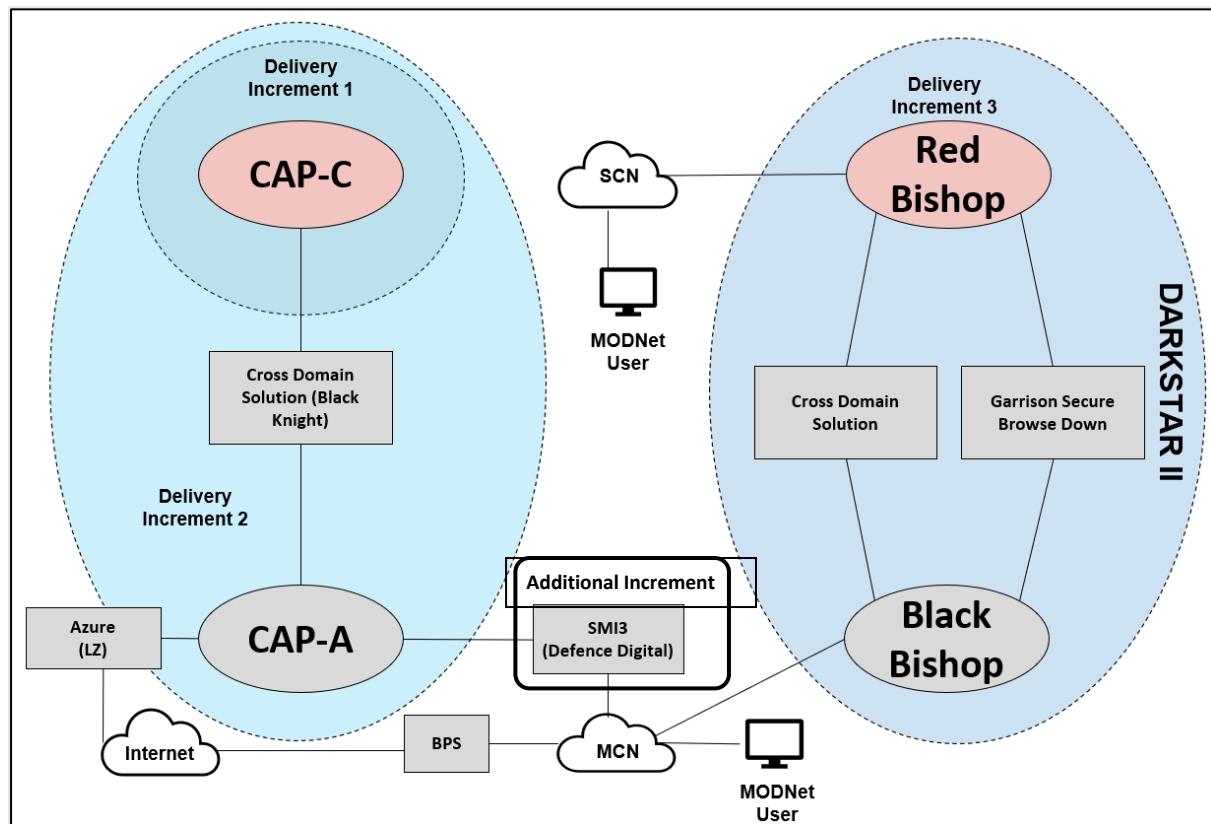

DARKSTAR has been provided to the RAF by an incumbent Contractor. Everything associated with DARKSTAR is MOD intellectual property.

AIX networks. CAP-A and CAP-C are the AIX development and experimentation networks. As can be seen in **Figure 2** below, much of the DARKSTAR OCD mirrors that of CAP-A and CAP-C including the Black Knight CDS between the two (2) networks. An experimental replica of the NEXUS live environment can be found on CAP-A and CAP-C and this will be utilised by the Contractor as the IAC2 Battlelab. This work package requires the Contractor to integrate with CAP-A and CAP-C networks. It should be noted that CAP-A and CAP-C along with all software currently installed upon it is managed and maintained on behalf of the AIX by an incumbent Contractor. High Level Designs of CAP-A and CAP-C will be provided to the Contractor following contract award.

⁴ NEXUS applications will be hosted on the ACHE.

⁵ The Lead user being 11 Group.

⁶ The DARKSTAR cross-domain solution is called Black Knight.

Each project will have KPIs that are tailored and bespoke to the specific service, that will be continuously assessed and tailored to suit the specific requirement of each project. Before the project commences, both the Authority and the Contractor will collaborate to agree upon and customise these indicators to ensure alignment with project goals and expectations. This will ensure that the KPIs accurately reflect the unique objectives and deliverables of each project. For further details, please refer to Annex Key Performance Indicators.

SoW duration can vary according to the predictability of the roadmap and priority level. There may be multiple SoWs covering the same or overlapping time periods, each covering a separate project.
