Resource and sprint plan:

Sprint 0 to confirm plans and deliverables will happen before Week 1. Sprints will be run weekly. BEIS will be sending invite, create target audience lists and conference venues as part of the project deliverables.

3.4.4 Risks or contingencies will be included in the Charges. The Parties agree that the following assumptions, representations, risks and contingencies will apply in relation to the Charges.

DDat22354

Assumptions	• A Client Department Product Owner will be in place to support the project. • The work will be undertaken remotely • All parties acknowledge that the services delivered under this statement of work may change at short notice at the request of the Client Department given the fast changing and developing environment, and possible findings in Sprint 0. Such changes will be documented by the Supplier and the Client Department. • Expectation that BEIS and other departmental staff participate in the enabling training and conferences scheduled • The provision of systems access, the data and ensuring data quality is the responsibility of BEIS.
--------------------	--

DDat22354

Dependencies	• Access to key resources in the Client Department organisation or other resource deployed by the Client Department • Access to quality assured data sources as and when required • The Supplier's ability to deliver 3.3 has a dependency on the direction, prioritisation, decisions and support provided by Client Department/other project staff, and the overall performance, availability and input of the wider delivery teams in the Client Department organisation. Should there be a risk of non-delivery of the stated outcomes/deliverables, this will be raised by the Supplier with the Client Department at the earliest opportunity.
---------------------	--

DDat22354

DDat22354

Risks	• The overall scope of the deliverables is substantial given the limited time available and hence there is a risk that not all desired outcomes can be provided within the timescales. Trade-offs and prioritisation with the client will be used to delivery priorities with the budget. Some lower priority items may be curtailed. • No dedicated sprints for revision and knowledge transfer to Client Department staff have been allocated beyond the current planned date of SOW. Knowledge transfer is aimed to be done wherever possible throughout. Any further revisions to the NZST required will require an alternative or additional agreement. • Lateness of delivery of data sets, user contacts, stakeholder engagement, and quality assured data could delay the Supplier's ability to deliver the NZST and conferences.
---------------------	---

The Supplier will, where required by and with prior agreement with the Buyer / Client Department, provide a suitably qualified person should there be an issue with any of their team, or if they are ill or on holiday for more than one week.

3.4.5 Any changes to the Supplier Staff should be agreed with the Buyer / Client Department and covered by a separate SOW where it cannot be accommodated within an existing SOW.

3.4.6 Multiple SOWs can operate concurrently.

3.4.7 The Supplier will keep accurate records of the time spent by the Supplier Staff in providing the services and will provide records to the Buyer for inspection on request

Sch 3.5. Call-Off Contract Extension Period

The Buyer must give the Supplier the minimum notice specified in the Order Form that an Extension

DDat22354

Period is required, set out how long the Extension Period is to be, and obtain prior written approval from the Supplier before applying any Extension Period to the CallOff Contract period.
