- 3.1. The Sub-contractor shall keep and maintain, and shall ensure that any lower tier Sub-contractor shall keep and maintain, until six (6) years after termination of Contract term or final payment under this Sub-contract, or as long a period as may be agreed between the Parties, full and accurate records including but not limited to:
- 3.1.1. copies of all documents required to demonstrate compliance with DEFSTAN 05-138 and this Condition, including but not limited to any information used to inform the CSM Risk Assessment Process and to carry out the CSM Supplier Assurance Questionnaire, together with any certificates issued to the Sub-contractor and/or any lower tier Sub-contractor.
- 3.1.2. copies of all documents demonstrating compliance with 2.1.5 and in relation to any notifications made under 2.1.6 and/or investigation under 2.1.7.
- 3.2. The Sub-contractor shall, and shall ensure that any lower tier Sub-contractor shall, on request provide the MOD, the MOD's representatives and/or the relevant Prime or Sub-contractor's NSA/DSA such access to those records under 3.1 as may be required in connection with this Sub-contract.

4. Audit

- 4.1. In the event of a Cyber Security Incident the Sub-contractor agrees that the MOD and its representatives, in coordination with the relevant Prime or Sub-contractor's NSA/DSA, may conduct such audits as are required to establish (i) the cause of the Cyber Security Incident, (ii) the impact of the Cyber Security Incident, (iii) the MOD Identifiable Information affected, and (iv) the work carried out by the Sub-contractor to resolve the Cyber Security Incident and to mitigate the effects, to ensure that the Cyber Security Incident is resolved to the satisfaction of the MOD and the NSA/DSA.
- 4.2. In addition to the rights in 4.1 above, the Sub-contractor agrees that the MOD, its representatives and/or the relevant Prime or Sub-contractor's NSA/DSA, either solely or in any combination, may at any time during the Contract and for a period of six (6) years after termination of this Sub-contract or the end of the Sub-contract term or final payment under the Sub-contract whichever is the later, but not more than once in any

calendar year, conduct an audit for the following purposes where the Sub-Contractor continues to hold MOD Identifiable Information:

- 4.2.1. to review and verify the integrity, confidentiality and security of any MOD Identifiable Information;
 - 4.2.2. to review the Sub-contractor's and/or any lower tier Sub-contractor's compliance with their obligations under DEFSTAN 05-138 or a Cyber Implementation Plan; and
 - 4.2.3. to review any records created during the provision of the Contractor Deliverables, including but not limited to any documents, reports and minutes which refer or relate to the Contractor Deliverables for the purposes of 3.1.1 and 3.1.2 above.
- 4.3. The MOD, acting reasonably and having regard to the confidentiality and security obligations owed by the Sub-contractor to third parties, shall propose the scope of each audit in writing with a view to seeking the agreement of the Sub-contractor but shall make the ultimate decision on the scope. For the avoidance of doubt the scope of the audit shall not grant the MOD any unsupervised access to any of the Sub-contractor's information systems or electronic communications networks. The MOD and the Prime Contractor shall use their reasonable endeavours to ensure that the conduct of each audit does not unreasonably disrupt the Sub-contractor and/or lower tier Sub-contractor or delay the provision of the Contractor Deliverables and supplier information received in connection with the audit shall be treated as confidential information.
- 4.4. The Sub-contractor shall, and shall ensure that any lower tier Sub-contractor shall, on demand provide the MOD and any relevant regulatory body, including the relevant Prime or Sub-contractor's NSA/DSA, (and/or their agents or representatives), together "the Auditors", with all reasonable co-operation and assistance in relation to each audit, including but not limited to:
- 4.4.1. all information requested by the MOD within the permitted scope of the audit;
 - 4.4.2. reasonable access to any Sites controlled by the Sub-contractor or any Associated Company and any lower tier Sub-contractor used in the performance of the Sub-contract to the extent required within the permitted scope of the audit and, where such Sites are outwith the control of the Sub-contractor, shall secure sufficient rights of access for the Auditors as shall be necessary to allow audits to take place; and
 - 4.4.3. access to any relevant staff.
- 4.5. Where the Prime Contractor is provided with notice of the audit by the MOD and/or the relevant NSA/DSA, the Prime Contractor shall endeavour to (but is not obliged to) provide at least 15 calendar days' notice to the Sub-contractor of the intention to conduct an audit.
- 4.6. The Parties agree that they shall bear their own respective costs and expenses incurred in respect of compliance with their obligations under

this Condition, unless the audit identifies a material breach of the terms of this Condition by the Sub-contractor and/or a lower tier Sub-contractor in which case the Sub-contractor shall reimburse the Prime Contractor and the MOD as appropriate for all the reasonable costs incurred in the course of the audit.

- 4.7. The Sub-Contractor shall in their lower tier Sub-contracts procure rights for the MOD to enforce the terms of this clause 4 of this Condition in accordance with the Contracts (Rights of Third Parties) Act 1999.

5. General

- 5.1. On termination or expiry of this Sub-contract the provisions of this Condition shall continue in force so long as the Sub-contractor and/or any lower tier Sub-contractor holds any MOD Identifiable Information relating to this Sub-contract.
- 5.2. Termination or expiry of this Sub-contract shall not affect any rights, remedies, obligations or liabilities of the Parties under this Condition that have accrued up to the date of termination or expiry, including but not limited to the right to claim damages in respect of any breach of this Sub-contract which existed at or before the date of termination or expiry.
- 5.3. The Sub-contractor agrees that the MOD has absolute discretion to determine changes to DEFSTAN 05-138 or the Cyber Risk Profile or both and issue new or updated Cyber Security Instructions. In the event that there is such a change to DEFSTAN 05-138 or the Cyber Risk Profile or both, then the Sub-contractor may seek an adjustment to the contract price from the Prime Contractor for any associated increase or decrease in costs and the Sub-contractor may request an extension of time for compliance with such revised or amended DEFSTAN 05-138 or Cyber Risk Profile or both **provided always that** the Sub-contractor shall seek to mitigate the impact on time and cost to the extent which it is reasonably practicable to do so and **further provided that** such costs shall not be allowed unless they are considered to be appropriate, attributable to this Sub-contract and reasonable in all the circumstances.
- 5.4. The Sub-contractor shall not recover any costs and/or other losses under or in connection with this Condition where such costs and/or other losses are recoverable or have been recovered by the Sub-contractor elsewhere in this Contract or otherwise. For the avoidance of doubt this shall include but not be limited to the cost of implementing any upgrades or changes to any information system or electronic communications network whether in response to a Cyber Security Incident or otherwise, where the Sub-contractor is able to or has recovered such sums in any other provision of this Sub-contract or has recovered such costs and/or losses in other contracts between the Sub-contractor and the Prime Contractor or with other bodies.

Completion Notes

Part A

If any information / technical data that is deliverable or delivered under the relevant Contract conditions is, or may be, subject to any IPR restrictions (or any other type of restriction which may include export restrictions) affecting the Authority's ability to use or disclose the information / technical data in accordance with the conditions of any resulting Contract, then the Contractor must identify this restricted information / technical data in this Part A. Otherwise, the Authority shall treat such information in accordance with the same rights under the Contract it would enjoy should no restrictions exist.

For example, any of the following must be disclosed:

- any restriction on the provision of information / technical data to the Authority; any restriction on disclosure or the use of information by, or on behalf of, the Authority; any obligations to make payments in respect of IPR, and any patent or registered design (or application for either) or other IPR (including unregistered design right) owned or controlled by you or a third party;
- any allegation made against the Contractor, whether by claim or otherwise, of an infringement of IPR (whether a patent, registered design, unregistered design right, copyright or otherwise) or of a breach of confidence, which relates to the performance of the Contract or subsequent use by or for the Authority of any Contract deliverables;
- the nature of any allegation referred to under sub-paragraph (b) above, including any request or obligation to make payments in respect of the IPR of any confidential information and / or;
- any action the Contractor needs to take, or the Authority is requested to take, to deal with the consequences of any allegation referred to under sub-paragraph (b) above.

Block 1	Enter the associated Invitation to Tender (ITT) or Contract number as appropriate.
Block 2	No action – This sequential numbering is to assist isolation and discussion of any line item
Block 3	Identify a unique reference number for the information / technical data (i.e. a Contractor's document or file reference number) including any dates and version numbers. Documents may only be grouped and listed as a single entry where they relate to the same Article and where the restrictions and IPR owner are the same.
Block 4	Identify the Article(s) associated with the information / technical data by entering a unique identification number / label for the Article(s). This may range from platform level down to sub-system level. This is to enable the Authority to quickly identify the approximate technical boundary to any user rights limitation (e.g. The RADAR or Defensive Aid Sub-System etc). This identification shall be at the lowest level of replaceability of the Article(s) or part of it to which the restrictions apply (i.e. if the restrictions apply to a sub-system the parent system should not be used to identify the restriction boundary). <u>Any entry without a unique identifier shall be treated as a nil entry.</u> NOTE: The Authority does not accept any IPR restrictions in respect of the physical Articles themselves. Block 4 is solely to provide an applied picture to any technical data stated under Block 3 as having IPR restrictions.
Block 5	This is a freeform narrative field to allow a short explanation justifying why this information / technical data has limited rights applying to it.
Block 6	Identify who is the owner of the IPR in the information / technical data (i.e. copyright, design right etc). If it is a sub-contractor or supplier, please identify this also.

Part B

If neither hardware nor software is proposed to be designed, developed or delivered as part of the Contract, Part B should be marked "NIL RETURN".

Otherwise, the Contractor must include a System / Product Breakdown Structure (PBS) in a format which is consistent with ISO 21511 and / or the configuration requirements of DEFSTAN 05-057, unless an alternative format better represents your design configuration. For software, a modular breakdown structure must be provided. For reasons of clarity, it is acceptable to provide several levels of breakdown if this assists in organising the configuration of the Articles.

Details provided under Part B shall not imply any restriction of use over the Contract Articles, nor any restriction on associated technical data to be delivered under the Contract. Any restrictions of such technical data must be identified within Part A.

Against each unique item within the PBS / module breakdown, one of the following categories shall be recorded:

- a) (PVF) - Private Venture Funded - where the article existed prior to the proposed Contract and its design was created through funding otherwise than from His Majesty's Government (HMG).
- b) (PAF) - Previous Authority Funded (inc. HMG Funded) - where the article existed prior to the proposed Contract and its design was created through Previous Authority Funding.
- c) (CAF) - Contract Authority Funded (inc. HMG Funded) - where the article did not exist prior to the Contract and its design will be created through Contract Authority Funding under this Contract.
- d) (DNM) Design Not Mature - where the article / design configuration is not yet fixed.

In combination with one of categories (a) to (d) above, the Contractor shall further identify where an item has, or will have, foreign export control applying to it, through use of the further following category:

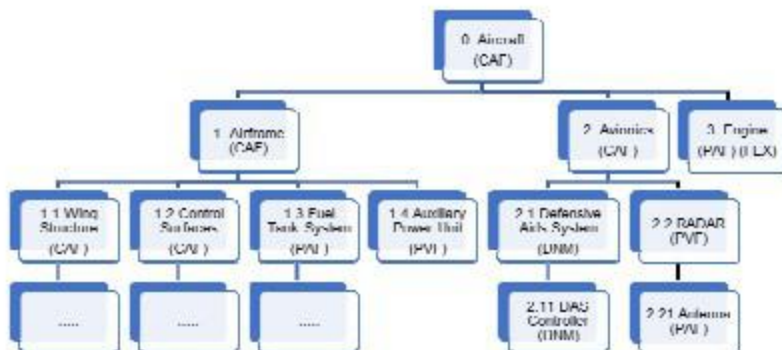

- e) (FEX) Foreign Export Controlled

Notes:

1. During the term of the Contract the Contractor may transition any items identified as category (d) above into category (b) or (c). Transitions from category (d) into category (a) may only be made with the express written agreement of the Authority's Senior Commercial Officer, and by following the amendment process set out in the Contract.
2. It is acceptable to specify the highest level of structure to which the category (a), (b) or (c) applies (i.e. there is no need to specify each sub-system / componentry if the entirety of the parent system was for example, Private Venture Funded). See guidance examples overleaf.
3. For the avoidance of doubt, where a parent system did not exist prior to the Contract yet makes use of Private Venture Funded Articles, it must be identified as (CAF). The Private Venture Funded sub-components / sub-systems can be identified as PVF.
4. Where items are identified as category (b), the Contractor should provide the number(s) of the previous Contract(s) under which the design was created and the Previous Authority Funding was applied.

Example PBS

A theoretical pictorial example is given below but it is to be noted that the configuration may equally be dealt with in a hierarchal tabularised format.

The diagram above indicates a highly simplified and hypothetical Contract scenario dealing with the procurement of a new air asset.

- i. The proposed new aircraft would be considered Contract Authority Funded (CAF) at its top level.
- ii. Items denoted as Private Venture Funded (PVF) would generally indicate that it and all of its sub-components have been funded by sources other than HMG. In this instance there is no need to proceed down the product breakdown structure any further (see 1.4), except unusually where a generally PVF regarded item has incorporated a Previous Authority Funded (PAF) item (see 2.21).
- iii. The proposed design is making use of a PAF engine.
- iv. This engine has Foreign Export Control (FEX) applying to items within it.
- v. The Defensive Aids System at 2.1 is covered as part of the Contract but the exact configuration and design has not yet been fixed "Design Not Mature" (DNM).
- vi. It is not feasible for a parent PVF system to make use of a CAF item; the parent system configuration would not have existed prior to the Contract.
