QUOTE NO. 2452**DATE 25/01/2024****EXPIRATION 29/02/2024****DATE**

DESCRIPTION	QTY	RATE	VAT	AMOUNT
Costs broken down into 'site' sections following survey. This includes all outstanding work, not just March 24.				
Qualifiers - We can invoice in 2 stages, everything that has been done by end of March 24, with the remaining trees subject to TM, conservation areas and TPO's in October following completion. This is to avoid a 6-7 month period of unpaid work. We are happy to negotiate the specifics and work with you.				
Time frames to complete the work are subject to the time required by CPC to agree the tender, as that process period is unknown and could push the works closer to the nesting season.				
The work quoted for is exclusively as outlined within the supplied tree schedule.

Terms and conditions:

We decide on the position of the final cut.
A fell to ground level means the stump will be cut as low as practically possible.

Clean ups will be conducted to the highest feasible standard but some disturbance t may be unavoidable, especially in wet weather.
