SCHEDULE 2

Statement of Work-

This Statement of Work is issued under and in accordance with the Contract entered into between the parties dated Tuesday 23rd March 2021

Project:	CR20101 - University Enterprise Zone: Final and process evaluation
Project start Date	<p>The contract start date is Tuesday 23rd March 2021</p> <p>The contract shall expire on Friday 29th March 2024.</p>
Project Notice	Notice period for cancellation is 30 days.
Services & Deliverables:	<p>The aim of this research is to conduct a process and impact evaluation of the University Enterprise Zone pilot to determine the effectiveness of UEZs in increasing the commercialisation of high-tech innovation in a local area. The final evaluation is comprised of two main elements:</p> <p>Firstly, Process evaluation, which is designed to understand the process of how the policy has been implemented and delivered and to identify factors that have helped or hindered its effectiveness.</p> <p>Secondly, the impact evaluation, which is concerned with what difference the intervention has made. At the interim evaluation, many of the UEZs had just commenced operations which made it difficult to assess impacts.</p> <p>Furthermore, the tenant survey – designed to establish the additionality of the UEZs, had very low response rates. We are hoping to address these weaknesses in several ways:</p> <ul style="list-style-type: none"> • Using telephone rather online survey methods, or a mixture of both. It is envisioned that this will boost response rates to the tenant survey. This, combined a larger sample population of UEZ tenants, should result in more robust findings. • Improved quality assurance of tenant contact details to ensure the most current, relevant contact details are held. • More time has elapsed since the establishment of the UEZ. <p>Accordingly, impacts should be more evident. This should be established in the annual tenant surveys to run between 2021-2023.</p> <ul style="list-style-type: none"> • Econometric analysis of impacts (this requires a further feasibility assessment as is dependent on sample sizes and observable characteristics) • Case studies of UEZ tenants will enrich our understanding of how, if at all, and why the UEZ has had an impact. The longitudinal nature of some of the case studies will help to develop a narrative around the impact of the UEZs in growing businesses. <p>The objective is to successfully evaluate the impact of the UEZ against the metrics and research questions set out in the evaluation framework. The results of the final evaluation will inform future policy decisions on funding by providing evidence on whether UEZs are an effective intervention that increases local growth, business support and innovation. Such analysis is essential to the government's attempt to increase R&D spending to 2.4% of GDP by 2027.</p> <p>Full deliverables can be found in the Letter of Appointment Appendix A and Appendix B</p>
