1 GENERAL DESCRIPTION

1.1 Introduction

- 1.1.1 This document sets out the Statement of Requirement (SOR) for In-Service Support (ISS) for the Ships Sensors And Monitoring Systems (SSAMS) equipment fitted to Type 45 Destroyers (T45) and Queen Elizabeth Class (QEC) Platforms, specified in Appendices 1 to 4.
- 1.1.2 This SOR document defines the Authority's requirements for equipment support activities for all equipment within the defined scope, during Fleet Time and Non-Fleet Time where specified.
- 1.1.3 This SOR describes the Support Services and Service Management Activities needed to provide equipment supplied for the range of equipment within scope as listed at Appendices 1 to 4. The Contract will be aligned with the Authority's Common Support Model Business Processes. Service Management defines the core operational framework under which the Contractor is best able to monitor and optimise the Services provided to the Authority and ensure that they meet the Authority's requirements.
- 1.1.4 The Contractor shall manage all items involved in the provision of the equipment
