**SCHEDULE ONE****1 BACKGROUND**

1. Counter-Extremism Division (CED) within the Department for Education (DfE) wish to appoint a Contractor to investigate and update our understanding of how Children's Social Care (CSC) services in England are managing cases of radicalisation or extremism amongst young people aged under 18. Radicalisation<sup>1</sup> and extremism<sup>2</sup> may take many forms including those based on religious, political and mixed/unclear and complex ideologies, and we are keen to explore approaches and challenges involved in terms of safeguarding children from such activity. The project will explore what local authorities are doing when cases of radicalisation and extremism amongst young people do arise, and which systems and practices seem to be the most effective in mitigating the risks. This includes partnership working with other agencies and organisations; best approaches to reducing a child's engagement with negative influencers online; and effective methods of diverting a child away from further engaging in terrorist activity. Findings will be used to inform learning across the sector and support cross-government work to improve the consistency of social work responses to such cases. This includes supporting the enhancement of existing training packages as well as the development of new CPD.
2. In 2016, DfE commissioned a study on [Safeguarding and Radicalisation](#)<sup>3</sup> about the challenges that they posed for children's social care and local authorities (LAs). Since that research took place, we know that the landscape has developed in important ways. The Independent Reviewer of Counter-Terrorism Legislation, Jonathan Hall, recently noted that an "increasing number of quite young people are being caught up in terrorism, including new forms of terrorism— not just conventional Islamist, extremist or right-wing terrorism, but other new emerging forms, such as the incel movement or even things at the very boundaries of what you might consider terrorism that are very violent".<sup>4</sup> There is a lack of current research evidence to understand how children's social care engage with these increasingly varied cases, the consistency of approaches adopted and an understanding of the unique challenges different types of radicalisation and extremism may pose.

**2 AIM**

The Contractor shall use all reasonable endeavours to achieve the following aims:

- To provide timely and up-to-date insights into how CSC services are responding to radicalisation and extremism.

<sup>1</sup> Radicalisation refers to the process by which a person comes to support terrorism and forms of extremism leading to terrorism.

<sup>2</sup> Extremism is defined in the 2011 Prevent strategy as vocal or active opposition to fundamental British values. This includes democracy and the rule of law, individual liberty and mutual respect and tolerance of different faiths and beliefs as well as calls for the death of our armed forces whether in this country or overseas.

- To build on the findings in [Safeguarding and Radicalisation](#) by confirming how views, practices, challenges and variation between local authorities have changed since 2016-17 and, where possible, by identifying further specific good and transferable practice.

The project will be designed to inform learning across the CSC sector in relation to managing cases of radicalisation and extremism.

### 3 OBJECTIVES

The Contractor shall use all reasonable endeavours to achieve the following objectives, to get a clear and current understanding of:

- Views amongst children's social care (CSC) professionals on how processes and practices have recently developed** with regard to managing cases of radicalisation and extremism, and the types of cases emerging.
- how CSC staff are currently tackling issues** with a focus on learning from real-life cases (including interventions used, effectiveness of partnership working, challenges faced and lessons learnt).
- good and promising practice** based on evidence of what has worked in which circumstances, which can be shared across the sector.
- the different challenges posed by various types of radicalisation cases** (Islamist, right-wing, mixed/unclear/unstable ideologies), as well as from different harmful influencers (familial, extra-familial or primarily online).
- what sources of information, advice and support social care staff use** (or would use) when radicalisation cases emerge, and how can social care staff best (reactively) obtain advice and guidance (on cases likely to be rare) as and when they have them.

## 5 METHODOLOGY

### OVERVIEW

The Contractor shall undertake the following steps in order to meet the project aims and objectives:

Step 1: project set up meeting

Step 2: workshop with PEO children's services group (Strand 1)

Step 3: preparation for fieldwork

Step 4: consultation with LA staff in 10 case study areas - 20 sessions and 1-to-1 interviews (Strand 2)

Step 5: interviews with national & regional stakeholders (Strand 3)

Step 6: analysis and reporting

### **STEP 1: CONTRACT DISCUSSION AND PROJECT SET-UP MEETING**

This meeting will be used to discuss and confirm specific timescales and key milestones for the project, key contacts and communication preferences, main risks and mitigation approaches, the most suitable platforms for online consultation, and the format of project outputs.

### **STEP 2: WORKSHOP WITH PREVENT EDUCATION OFFICERS (PEO) CHILDREN'S SERVICES GROUP (STRAND 1)**

The Contractor shall make arrangements for the set up and fieldwork for the workshop with up to 8 members of the PEO group in order to:

- Fully explore at the outset the key existing issues which the Group have picked up from their experiences in recent weeks and months.
- Help inform the selection of the sample of local authorities for inclusion in the research.
- Shape the topics and questions on which to consult local authority staff and other national/regional stakeholders.
- Identify scenarios based on (anonymised) real cases, which may be incorporated into consultation with local authority staff.
- Begin to frame and contextualise later consultation responses.

**Timing:** To be conducted early October, as shown in Table 1. The workshop will be conducted on a platform most suitable for the participants, which we expect to be either Skype, Teams and Zoom. The Contractor will be sensitive to the commitments and other time pressures on the participants, and will be flexible on timings and ensure the discussions are focused and productive, within a 90 minute to 2 hour time slot.

The Contractor shall produce a summary of the key findings from this workshop to accompany the draft topic guide for consultation with local authorities and any suggestions for local authority areas and other stakeholders to include in the sample (see step 3 below).

### **STEP 3: PREPARATION FOR FIELD WORK**

The Contractor shall prepare for fieldwork by:

- **Producing semi-structured topic guides to guide the consultation** with PEOs (step 2), local authority staff (step 4) and interviews with national/regional stakeholders (step 5). These will be agreed with and signed off by the department.

The Contractor shall draft two versions of each topic guide for local authority staff, one for small group consultation and one for 1-to-1 consultation. Where necessary, the topic guide will include questions targeting those with more experience and those with little direct experience (which may draw on scenarios developed and agreed with the department in advance). The topic guides will be shared with the project steering group for feedback before they are finalised and used in interviews.

The semi-structured nature of the topic guides will build in flexibility to consult with staff in a range of roles, or with different levels of expertise/experience in managing cases of radicalisation/extremism.

- **Agreeing the sample of 10 local authorities and national/regional stakeholders to invite to participate in the research, in discussion with DfE and the PEO Children's Services group.** The sample shall include a mix of Prevent priority areas and other local authority areas where it is envisaged by the project steering group, that valuable learning might be made.
- **Identifying specific staff members to participate in consultation,** in discussion with the department. The department will endeavour to provide named contacts for the initial approach. The Contractor shall take steps to follow up these contacts to establish the most suitable staff members to participate, and to make arrangements for interview.

#### STEP 4: CONSULTATION WITH LOCAL AUTHORITY STAFF IN 10 AREAS (STRAND 2)

The Contractor shall conduct up to 20 remote paired or small group sessions with local authority staff in 10 case study areas. Where it is more appropriate, or it is requested by the participant, the Contractor shall undertake one-to-one consultation with a small number of participants. To maximise participation, the Contractor shall offer flexible time slots to suit participants' schedules and provide the option of online consultation via Zoom or Teams, teleconference, or direct phone call. Sessions will last 45-60 minutes.

The focus will be on gathering information to meet the objectives of this study. This includes obtaining views amongst children's social care (CSC) professionals on

- **how processes and practices have recently developed** with regard to managing cases of radicalisation and extremism, and the types of cases emerging.
- **how CSC staff are currently tackling issues** with a focus on learning from real-life cases (including interventions used, effectiveness of partnership working, challenges faced and lessons learnt).
- **good and promising practice** based on evidence of what has worked in which circumstances, which can be shared across the sector.
- **the different challenges posed by various types of radicalisation cases** (Islamist, right-wing, mixed/unclear/unstable ideologies), as well as from different harmful influencers (familial, extra-familial or primarily online).
- **what sources of information, advice and support social care staff use** (or would use) when radicalisation cases emerge, and how can social care staff best (reactively) obtain advice and guidance (on cases likely to be rare) as and when they have them.

It is anticipated that it may be useful to develop scenarios to act as prompts, if needed in discussions with staff members with less direct experience. Scenarios shall be developed and agreed in consultation with DfE and the PEO group. They will be used judiciously and only where it became clear that a discussion without such prompts would not be productive in providing useful insights.

#### STEP 5: TWO FURTHER ROUNDS OF CONSULTATION WITH NATIONAL/REGIONAL STAKEHOLDERS (STRAND 3)

In addition to the PEO workshop, the Contractor shall undertake two rounds of consultation with national and regional stakeholders, pre- and post-consultation with LA staff.

- **Round 1:** consisting of 1-to-1 interviews with regional/national stakeholders (of 45 to 60 min in length) – October 2020
- **Round 2:** consisting of a workshop to sense-check emerging findings after initial analysis (of 1 to 2 hours in length, in agreement with DFE, depending upon number of participants) – January 2021.

## STEP 6: ANALYSIS, PRESENTATION OF EARLY FINDINGS AND REPORTING

The Contractor shall undertake robust, thematic qualitative analysis designed to provide lessons for policy and practice. Analysis will be led by [REDACTED] Project Director, with support from [REDACTED] Project Manager.

The Contractor shall provide a presentation of initial findings and a skeleton structure for the final report by December 2020 (see Table 1). The Contractor shall submit a draft report in the DFE [report template](#), meeting the DFE's [accessibility standards](#).

## 6. STAFFING

The function of the Steering Committee shall be to review the scope and direction of the Project against its aims and objectives, monitor progress and efficiency, and assess, manage and review expected impact and use of the findings from the Project against an agreed Project Communication Plan, through the standard Department Communication Plan Template. The Committee shall meet at times and dates agreed by the parties, or in the absence of agreement, specified by the Department. The Contractor's representatives on the Steering Committee shall report their views on the progress of the Project to the Steering Committee in writing if requested by the Department. The Contractor's representatives on the Steering Committee shall attend all meetings of the Steering Committee unless otherwise agreed by the Department.

## 8. RISK MANAGEMENT

Table 2 outlines the key risks and mitigations. The Contractor will undertake fortnightly monitoring of risk, highlight risks and propose options for mitigation as part of the fortnightly project management updates to the DfE Project Manager.

**Table 2: risks and mitigations**

Item	Risk Summary	Possible impact and mitigation
Staffing	Cordis Bright team is unexpectedly unavailable and work cannot proceed as planned. Likelihood: low.	Possible impact: high The Contractor's core team of two members who will be able to support each other's workloads in the event of absence. If required, Cordis Bright has a wider staff team and network of associates who would be well-placed to assist (if approved by DfE).
Approach and tools	Research approach and tools are insufficient to enable the research questions to be addressed. Likelihood: low.	Possible impact: high The Contractor is skilled at delivering effective qualitative research. The Contractor will work hard at the outset to ensure research tools, participants and engagement methods are carefully organised to ensure all key questions are addressed.
Technical constraints and data issues	Research tools and/or participants do not yield answers to proposed research questions. Likelihood: Moderate.	Possible impact: moderate. Research tools and proposed participants will be prepared in advance, in collaboration with DfE and insight from the PEO Children's Services Group. However, this is exploratory research into a complex subject and will always carry some risk that only a partial understanding can be gathered. If so, the Contractor will use their expertise to share hypotheses, but will not over-interpret and will recommend efficient routes to gathering further insight.
Data access	Research partners are unavailable or unable to engage. Likelihood: Moderate.	Possible impact: high. The Contractor recommends 5 reserve case study areas in reserve, to ensure they can engage with sites that (a) are willing to be involved (b) have capacity to be involved and (c) can field staff and stakeholders with sufficient insight or exposure regarding the research questions. – To be agreed in consultation with the DfE project manager in consultation with the Steering Group
Time management and operational issues	Project or time management is insufficiently reliable. Likelihood: low.	Possible impact: high The Contractor has a strong track record of delivering clients' required outputs to time and budget, and will plan and monitor progress collaboratively. The methods and plans outlined in this contract have been designed based on the Contractor's extensive learning about typical challenges/opportunities in delivering sensitive qualitative research among this research cohort.

## **9 DATA COLLECTION**

The Department seeks to minimise the burdens on any Schools, Children's Services and Local Authorities (LAs) taking part in surveys.

When assessing the relative merits of data collection methods the following issues should be considered;

- only data essential to the project shall be collected;
- data should be collected electronically where appropriate/preferred;
- questionnaires should be pre-populated wherever possible and appropriate;
- schools must be given at least four working weeks to respond to the exercise from the date they receive the request; and
- LAs should receive at least two weeks, unless they need to approach schools in which case they too should receive 4 weeks to respond;

The Contractor shall clear any data collection tools with the Department before engaging in field work.

The Contractor shall check with the Department whether any of the information that they are requesting can be provided centrally from information already held.

## **10. CONSENT ARRANGEMENTS**

The Department and the Contractor shall agree in advance of any survey activity taking place the consent arrangements that shall apply for each of the participant groups. All participants should be informed of the purpose of the research, that the Contractor is acting on behalf of the Department and that they have the option to refuse to participate (opt out). Contact details should be provided including a contact person at the Department. Children who are 16 or over will usually be able to give their own consent but even where this is so, the Contractor, in consultation with the Department, should consider whether it is also appropriate for parents, guardians or other appropriate gatekeepers (e.g. schools, Local Authorities) to be informed when a child has been invited to participate in research.

## **11. PROJECT COMMUNICATION PLAN**

The Contractor shall work with the Project Manager and Steering Group to agree the content of the Project Communication Plan on the standard Department Communication Plan Template at the start of the Project, and to review and update at agreed key points in the Project and at the close of the Project. The Communication Plan shall set out the key audiences for the Project, all outputs intended for publication from the Project, the likely impact of each output, and dissemination plans to facilitate effective use by the key audiences.

Invoices submitted by email must be in PDF format, with one PDF file per invoice including any supporting documentation in the same file. Multiple invoices may be submitted in a single email but each invoice must be in a separate PDF file. The Department undertakes to pay correctly submitted invoices within 10 days of receipt. If any problems arise, contact the Department's Project Manager. The Department aims to reply to complaints within 10 working days. The Department shall not be responsible for any delay in payment caused by incomplete or illegible invoices.
- 7 The Contractor shall have regard to the need for economy in all expenditure. Where any expenditure in an invoice, in the Department's reasonable opinion, is excessive having due regard to the purpose for which it was incurred, the Department shall only be liable to reimburse so much (if any) of the expenditure disallowed as, in the Department's reasonable opinion after consultation with the Contractor, would reasonably have been required for that purpose.
- 8 If this Contract is terminated by the Department due to the Contractor's insolvency or default at any time before completion of the Projects, the Department shall only be liable under paragraph 1 to reimburse eligible payments made by, or due to, the Contractor before the date of termination.
- 9 On completion of the Project or on termination of this Contract, the Contractor shall promptly draw-up a final invoice, which shall cover all outstanding expenditure incurred for the Project. The final invoice shall be submitted not later than 30 days after the date of completion of the Projects.
- 10 The Department shall not be obliged to pay the final invoice until the Contractor has carried out all the elements of the Projects specified as in Schedule 1.
- 11 It shall be the responsibility of the Contractor to ensure that the final invoice covers all outstanding expenditure for which reimbursement may be claimed. Provided that all previous invoices have been duly paid, on due payment of the final invoice by the Department all amounts due to be reimbursed under this Contract shall be deemed to have been paid and the Department shall have no further liability to make reimbursement of any kind.

- 8.5 Departmental Data being handled in the course of providing an ICT solution or service must be segregated from all other data on the Contractor's or sub-contractor's own IT equipment to protect the Departmental Data and enable the data to be identified and securely deleted when required. Where sanitisation or destruction is not possible for legal, regulatory or technical reasons, such as a Storage Area Network (SAN) or shared backup tapes, then the Contractor or sub-contractor shall protect the Department's information and data until the time, which may be long after the end of the contract, when it can be securely cleansed or destroyed.
- 8.16 Access by Contractor or sub-contractor staff to Departmental Data shall be confined to those individuals who have a "need-to-know" in order to carry out their role; and have undergone mandatory pre-employment screening, to a minimum of HMG Baseline Personnel Security Standard (BPSS); or hold an appropriate National Security Vetting clearance as required by the Department. This should include evidence that the

Contractor has tested or exercised these plans within the last 12 months and produced a written report of the outcome, including required actions.

- 8.19 Any suspected or actual breach of the confidentiality, integrity or availability of Departmental Data being handled in the course of providing this service, or any non-compliance with these Departmental Security Standards for Contractors, or other Security Standards pertaining to the solution, shall be investigated immediately and escalated to the Department by a method agreed by both parties.
- 8.20 The Contractor shall ensure that any IT systems and hosting environments that are used to handle, store or process Departmental Data shall be subject to independent IT Health Checks (ITHC) using a NCSC approved ITHC provider before go-live and periodically (at least annually) thereafter. The findings of the ITHC relevant to the service being provided are to be shared with the Department and all necessary remedial work carried out. In the event of significant security issues being identified, a follow up remediation test may be required.
- 8.21 The Contractor or sub-contractors providing the service will provide the Department with full details of any storage of Departmental Data outside of the UK or any future intention to host Departmental Data outside the UK or to perform any form of ICT management, support or development function from outside the UK. The Contractor or sub-contractor will not go ahead with any such proposal without the prior written agreement from the Department.
- 8.22 The Department reserves the right to audit the Contractor or sub-contractors providing the service within a mutually agreed timeframe but always within seven days of notice of a request to audit being given. The audit shall cover the overall scope of the service being supplied and the Contractor's, and any sub-contractors, compliance with the clauses contained in this Section.

and Information Risk Advisor (SIRA).
