**SCHEDULE ONE****1 BACKGROUND**

The COVID-19 pandemic is the biggest health crisis for generations, and it is having a devastating impact on the lives of people across the world. Along with the direct harms of the pandemic, the short- and long-term indirect harms of the pandemic also need to be investigated. It is important that we understand these harms, including across different groups, and how they can be mitigated to minimise the negative impact of the pandemic. There is emerging literature on these harms of COVID-19, alongside already established evidence on what works to support the workforce outside of the pandemic context including books, reviews, journal articles, reviews and evaluation reports. This work will provide a synthesis of the evidence to inform policy discussions.

The DfE will manage this project but are commissioning this work on behalf of the SAGE Children's Task and Finish group.

**2 AIM**

The Contractor shall use all reasonable endeavours to conduct a rapid evidence review to provide the task and finish group with a publishable research report on mitigating the harms of the Covid-19 pandemic in relation to the education, childcare and social care workforce.

**3 OBJECTIVES**

The Department needs to understand the short- and long-term harms of the pandemic on the education, childcare and social care workforce. It is important that we understand these harms, including across different groups, and how they can be mitigated to minimise the negative impact of the pandemic.

Topics to cover in the review may include (where relevant) but are not limited to:

Short Term Harms:

- Mental Health
- Well-Being & Development
- Physical Health
- Nutrition
- Misuse of Substances
- Domestic Violence
- Support Service Access
- Indirect Groups at Risk (e.g., those with extended caring responsibilities)
- Immediate Earning Capacity Changes

Long Term Harms:

- Mental Health
- Well-Being & Development
- Physical Health
- Nutrition
- Misuse of Substances
- Domestic Violence
- Support Service Access

- Indirect Groups at Risk (e.g., those with extended caring responsibilities)
- Gender & Social Group Imbalance Widening
- Changes in socioeconomic status (SES)

#### 4 TASKS

The Contractor shall use all reasonable endeavours to achieve the following objectives:

- Gather together published data and impact evidence on the short- and longer-term direct harms of COVID-19 on the education, childcare and social care workforce, and how these can be mitigated. This will include robust evidence, where available, and cover the areas specified below, alongside other areas the contractor believes to be relevant.
- Produce a skeleton template for this work prior to writing the final report. This will be discussed with the steering group to confirm evidence quality criteria and potential evidence gaps.
- Map out the existing evidence base into a detailed document for internal use. This may be an excel document, but will be agreed with the steering group and the contractor.
- Produce a final output of a publishable research report to a DfE agreed standard, approximately 20-30 pages. This will be accessible to key stakeholders. The final report output will summarise and collate the evidence to allow the Task and Finish group to have consensus statements to guide the Department on what works and how harms of Covid-19 could be mitigated.

The final project will answer the following research questions:

- What is the current evidence on the harms caused by COVID-19? Why are these a problem?
- What does the evidence suggest may mitigate these short- and longer-term harms, e.g., what, if any, policy interventions have been successful in mitigating short- and longer-term harms? These are likely not specific to COVID-19.
- Where would further research be important?

##### 4.1 Schedule of Work:

Task	Output	Date Required
Production of a skeleton report	Delivery of skeleton report	22 <sup>nd</sup> April– 29 <sup>th</sup> April 2021
Production of a draft final publishable report and annexes, as agreed with DfE	Delivery of draft final report	25 <sup>th</sup> May 2021
DfE to provide comments on draft final report	Comments on draft final report	4 <sup>th</sup> June 2021
Submission of final publishable report and annexes, as agreed with DfE	Delivery of final report	17 <sup>th</sup> June 2021
Dissemination of findings	Dissemination, with data and means to be agreed by the steering group, e.g. a roundtable with DfE and steering group	May - July 2021

## 5 METHODOLOGY

This project will incorporate two main stages:

- 1) **Initial scoping** – Contractors will map out the existing evidence base to produce a skeleton template. This will then be discussed with the steering group to confirm evidence quality criteria and potential evidence gaps.
- 2) **Critical evaluation and synthesis of evidence** – Contractors will conduct the review, and appropriately synthesise the evidence into a publishable Research Report that effectively responds to the established research questions.

## 6. STAFFING

### Department for Education

██████████ (Project Director) will be responsible for directing the project.

██████████ (Project Manager) will be responsible for day-to-day contact with the contractor's team.

██████████ (Steering Group Liaison) will be responsible for liaising with the steering group.

██████████, ██████████ and ██████████ will form part of the steering group referenced below.

### The Contractor

██████████ (Project Manager) responsible for overseeing the project, and will lead the review section on the childcare workforce.

██████████ ██████████ will lead the review on the impact of Covid on teachers and associated professions such as teaching

██████████ ██████████ will lead the review element on social workers and other groups in the social care sector.

## 7 STEERING COMMITTEE

The Project Manager shall set up a Steering Committee for the Project, consisting of representatives from the Department, the Contractor, and any other key organisations whom the project will impact on, to be agreed between the parties. The function of the Steering Committee shall be to review the scope and direction of the Project against its aims and objectives, monitor progress and efficiency, and assess, manage and review expected impact and use of the findings from the Project against an agreed Project Communication Plan, through the standard Department Communication Plan Template. The Committee shall meet at times and dates agreed by the parties, or in the absence of agreement, specified by the Department. The Contractor's representatives on the Steering Committee shall report their views on the progress of the Project to the Steering Committee in writing if requested by the Department. The Contractor's representatives on the Steering Committee shall attend all meetings of the Steering Committee unless otherwise agreed by the Department.

## 8. RISK MANAGEMENT

Risk area	Impact	Probability	Mitigation Strategy
Time-scales - managing the project on time	Medium	Low	The review would be conducted by a team of three experienced researchers, providing sufficient capacity. By dividing the review by workforce group, individual team members can work efficiently and flexibly to conduct their part of the review.
Amount of literature found much larger than expected	Medium	Medium	The PI will liaise with DfE to discuss suitable options to deliver the project on time and on budget. This will include further discussion and potentially refining of inclusion criteria.
Amount of literature found is smaller than expected	Low	High	Where there are gaps in the evidence base, these will be clearly highlighted to indicate where further research may be necessary.
Report meeting the needs of DfE	Medium	Low	The PI will liaise with DfE/Steering Group at key stages of the study. The team have experience of conducting rapid evidence and other reviews for DfE and understand their broad requirements.
Staffing - loss of key staff	Medium	Low	The IER has had low turnover over the years. Should a team member become unavailable, we would make an assessment of whether the other team members can pick up the work or whether it will be necessary to draw upon other IER researchers or the experienced external researchers who form part of our researcher pool who can be additionally deployed on the project, if required. This would be by agreement with DfE.

## 9 DATA COLLECTION

The Department seeks to minimise the burdens on Schools, Children's Services and Local Authorities (LAs) taking part in surveys.

When assessing the relative merits of data collection methods the following issues should be considered;

- only data essential to the project shall be collected;
- data should be collected electronically where appropriate/preferred;
- questionnaires should be pre-populated wherever possible and appropriate;
- schools must be given at least four working weeks to respond to the exercise from the date they receive the request; and
- LAs should receive at least two weeks, unless they need to approach schools in which case they too should receive 4 weeks to respond;

The Contractor shall clear any data collection tools with the Department before engaging in field work.

The Contractor shall check with the Department whether any of the information that they are requesting can be provided centrally from information already held.

#### **10. CONSENT ARRANGEMENTS**

The Department and the contractor shall agree in advance of any survey activity taking place the consent arrangements that shall apply for each of the participant groups. All participants should be informed of the purpose of the research, that the Contractor is acting on behalf of the Department and that they have the option to refuse to participate (opt out). Contact details should be provided including a contact person at the Department. Children who are 16 or over will usually be able to give their own consent but even where this is so, the Contractor, in consultation with the Department, should consider whether it is also appropriate for parents, guardians or other appropriate gatekeepers (e.g. schools, Local Authorities) to be informed when a child has been invited to participate in research.

#### **11. PROJECT COMMUNICATION PLAN**

The Contractor shall work with the Project Manager and Steering Group to agree the content of the Project Communication Plan on the standard Department Communication Plan Template at the start of the Project, and to review and update at agreed key points in the Project and at the close of the Project. The Communication Plan shall set out the key audiences for the Project, all outputs intended for publication from the Project, the likely impact of each output, and dissemination plans to facilitate effective use by the key audiences.
