10. The Authority may make a written request to the Contractor to seek a variation to the licence conditions to a foreign export licence to enable the Authority to re-export or re-transfer a licensed item or licensed information from the UK to a non-licensed third party. If the Authority makes such a request that is transmitted to the Second Party by the First Party, the Second Party shall, or procure that the Second Party's Subcontractor will, expeditiously consider whether or not there is a reason why it should object to making the request and, where it has no such objection, file an application to seek a variation of the applicable export licence in accordance with the procedures of the licensing authority. The First Party shall provide information, certification and other documentation necessary to support the application for the requested variation that it has received. A fair and reasonable charge for this service based on the cost of providing it will be borne by the Authority.
11. Where the Second Party subcontracts work under the Agreement, which is likely to be subject to foreign export control, the Second Party shall use reasonable endeavours to incorporate in each subcontract the same terms as set out in these clauses 1 - 14. Where it is not practicable to include these said terms, the Second Party shall report that fact and the circumstances to the First Party.
12. Where the First Party provides materiel (information and items, including software) to enable the Second Party to perform the Agreement, and that materiel is subject to a non-UK export licence or other related technology transfer control as described in clause 3:
- a. the First Party may, or at the request of the Second Party undertake to, give the Second Party a summary of every non-UK export licence or other related technology transfer control of which it is aware that would affect the Second Party's ability to perform the Agreement including, to the extent applicable to the Second Party's performance of the Agreement:
- (1) the exporting nation, including the export licence number (where known);
 - (2) the items or information affected;
 - (3) the nature of the restriction and obligation;
 - (4) the authorised end use and end users;
 - (5) any specific restrictions on access or use by third parties, or by individuals based upon their nationality, to the items or information affected; and

- (6) any specific restrictions on re-transfer or re-export to third parties of the items or information affected.
- b. This will not include Intellectual Property-specific restrictions of the type mentioned in condition D1 (Third Party Intellectual Property – Rights and Restrictions) in relation to the First Party's Conditions of Contract instead of the Contractor.
- c. The Second Party and its subcontractors, where access by these restrictions is also authorised, shall abide by the lawful restrictions so notified by the First Party.
- d. The Second Party shall notify the First Party immediately if it is unable for whatever reason to abide by any restriction advised by the First Party to the Second Party under clause 12.
13. Where restrictions are advised by the First Party to the Second Party under clause 12, the First Party and the Second Party shall act promptly to mitigate their impact. If these restrictions adversely affect performance of the Agreement by the Second Party, then the First Party shall consult with the Second Party on alternative solutions and the terms of the Agreement shall be amended to give effect to the agreed solution. If no alternative solution satisfying the essential terms of the Agreement is agreed by the Parties then the First Party shall have the right to terminate the Agreement. Termination under these circumstances will be in accordance with the principles of condition A22 (Termination for Convenience) of the First Party's Conditions of Contract.
14. Without prejudice to United Kingdom Government's position on the validity of any claim by a foreign government to extra-territoriality, the Authority has undertaken to provide the Second Party with all reasonable assistance to facilitate the granting of an export licence by a foreign Government in respect of performance of the Agreement.
